Note: The financial information contained in this document is unaudited and, accordingly, is subject to change. The consolidated income statement and the consolidated balance sheet and the corresponding breakdowns of those statements provided in this report, are presented under management criteria, but have still been prepared in accordance with International Financial Reporting Standards (IFRS-EU) as adopted by the European Union under the terms of Regulation (EC) No 1606/2002 of the European Parliament and of the Council of 19 July 2002, as subsequently modified. In preparing these statements, Circular 4/2017 of the Bank of Spain of 6 December, as subsequently modified, has also been taken into due account in that it adapts IFRS-EU to Spanish credit institutions.

This report has been prepared from the accounting records of CaixaBank, S.A. and the other Group companies, and includes certain adjustments and reclassifications required to apply the policies and criteria used by the Group companies on a consistent basis with those of CaixaBank. For this reason, and specifically in the case of BPI, the information contained in this document does not coincide with certain aspects presented in BPI's publication of financial information. Likewise, the financial information regarding investees has been prepared primarily on the basis of estimates made by CaixaBank, hereinafter the "Company".

Figures are presented in millions of euros unless the use of another monetary unit is stated explicitly, and may be expressed as either million euros or € million. Certain financial information in this report was rounded off and, specifically, the figures shown herein as totals may differ slightly from the arithmetic sum of the individual figures given before them.

In accordance with the Guidelines on Alternative Performance Measures (APMs) published by the European Securities and Markets Authority on 30 June 2015 (ESMA/2015/1057), the appendices hereto provide the definition of certain alternative financial measures and, where appropriate, the reconciliation with the items contained on the financial statements for the period in question.

In accordance with the Amendments to IFRS 4 and subsequent reviews, the Group has decided to apply temporary exemption from applying IFRS 9 to the financial investments of the Group's insurance firms for all periods that come before 1 January 2023, aligning its first application with the entry into force of the new IFRS 17: Insurance Contracts (expected on 1 January 2023), which will govern the presentation and measurement of insurance contracts (including technical provisions). Accordingly, these investments are measured in accordance with IAS 39 and grouped under the heading "Assets under the insurance business" on the balance sheet. To make the information more readily comparable, the Group has also grouped together the technical provisions corresponding to Unit Link and Flexible Investment Life Annuity (the part managed), which are now reported jointly under 'Liabilities under the insurance business'.

Key information

Our Bank

The merger between CaixaBank and Bankia was materialised in the first quarter of 2021, consolidating CaixaBank's leadership in the Spanish financial system.

Following this operation, the CaixaBank Group exceeds €670,000 million in assets and serves over 21 million customers through a network of more than 6,000 branches in Spain and Portugal.

CaixaBank's vision is to be a **leading and innovative financial group** with the **best customer service**, while making it a **benchmark for socially responsible banking**.

Euromoney has acknowledged CaixaBank as the **"Best Bank in Spain 2021"**. Furthermore, CaixaBank has been named **"Best Bank in Spain"** for the seventh consecutive year and **"Best Bank in Western Europe"** for the third time, at the *Best Bank Awards* handed out each year by the magazine *Global Finance*, for its social responsibility, financial robustness and leadership position following the merger with Bankia.

Customer experience

- With a **customer base of 19.1 million in Spain**, CaixaBank provides a unique omnichannel distribution platform with multi-product capabilities that continuously evolves to anticipate customer needs and preferences.

Our service vocation helps us establish solid market shares¹, which have been reinforced with the integration of Bankia:

Loans to individuals and business	Consumer lending	Deposits by individuals and business	Investment funds	Pension plans	Long-term saving	Card turnover
24.9%	22.5%	25.1%	24.9%	33.7%	29.3%	33.4%

- BPI boasts a customer base of over **1.9 million clients in Portugal**, with a market share² of 10.8% in lending activity and 11.3% in customer funds.

In 2021, BPI was acknowledged with the **"Five Stars Award"** in the category of Major Banks and in the category of *Conta Ordenado* for its customer satisfaction and acknowledgement and the simplicity of *Cuenta Valor*, which is exempt from fees and offers free cards and transfers in digital channels. In addition, it has been selected **"Brand of Confidence"** in the banking sector for the eighth consecutive year by the magazine *Seleções do Reader's Digest*, improving its performance in all evaluated attributes: service quality, cost-benefit ratio and customer service.

Digital transformation

- CaixaBank continues to strengthen its **leadership of the digital banking market**, with a proportion of digital customers³ of 70.6%, maintaining a firm commitment towards digital transformation and supporting innovative companies with a potential for growth.
- CaixaBank was named **"Most innovative bank in Western Europe 2021"** by the magazine *Global Finance*.
- The magazine PWM (*Financial Times* Group) has acknowledged CaixaBank as **"Best Private Bank in Europe in Big Data Analysis and Artificial Intelligence 2021"** for its digital transformation strategy and continuous innovation.

People-centric culture

- CaixaBank is included in the **Bloomberg Gender-Equality Index**, which acknowledges the companies that are most committed to gender equality, through their policies, and transparency in disseminating their gender-related programmes and data.

In 2021, *Bloomberg* position **CaixaBank as the world's leading company in gender equality**.

Responsible management and social commitment

- The CaixaBank Group is **firmly committed to being a key figure in helping alleviate the effects** caused by the **Covid-19 health crisis** by providing all its human, technological and financial resources in granting loans, as well as other actions to help families, companies and society as a whole. This led the magazine *Global Finance* to highlight in 2021 its **“Successful strategy as a liquidity provider during the pandemic in Western Europe 2021”**.
- CaixaBank, through its subsidiaries VidaCaixa and CaixaBank Asset Management, has become the **first bank in Spain** to receive **AENOR's Sustainable Finances certification** under ESG criteria (Environmental, Social and Governance) for financial asset managers.
- CaixaBank issued in the second quarter of 2021 a new **social bond for €1,000 million linked to the SDGs** aimed at financing education and anti-poverty projects. In addition, its inaugural green bond was named **“Green Bond of the Year 2021”** by the magazine *Environmental Finance*.
- Within the environmental scope, *the Carbon Disclosure Project* includes **CaixaBank on its A- list of leading companies fighting climate change**. CaixaBank is carbon neutral since 2018.

CaixaBank is **included in the UN Collective Commitment for Climate Action**.

In 2021 CaixaBank **joined, as a founding member, the Net Zero Banking Alliance**, an initiative that promotes zero net emission by 2050. Joining this initiative strengthens the Bank's commitment to sustainability, positioning CaixaBank as one of the most renowned in the sector, in line with our stakeholder's expectations.

- Additionally, **BPI was rewarded *Jornal de Negócios'* “National Sustainability Award 2021”** in the Equality and Diversity category.

CaixaBank and Bankia merger

On 17 September 2020, the Board of Directors of CaixaBank and Bankia entered a Shared Merger Project involving the takeover merger of Bankia (absorbed company) by CaixaBank (absorbent company).

This Shared Merger Project was approved by the General Shareholders' Meetings of CaixaBank and Bankia, which were held at the beginning of December 2020, agreeing the following:

- The takeover merger of Bankia (absorbed company) by CaixaBank (absorbent company), entailing the extinction of the former, via dissolution without liquidation, and the transfer of the entirety of its assets to CaixaBank, which acquires the rights and obligations of Bankia through universal succession.
- The Merger exchange ratio is set at 0.6845 shares of CaixaBank, with a nominal value of one euro each, for each share of Bankia, with a nominal value of one euro each (hereinafter, the "Exchange Ratio").
- CaixaBank will cover the Exchange Ratio by means of newly issued shares.

Effective control was set for 23 March 2021, once all conditions precedent were met.

Considering Bankia's share capital at this date, the Exchange Ratio and the closing price of the CaixaBank share at such date, the total value of the capital increase and, accordingly, the **cost of acquisition of the business**

combination amounted to **€5,314 million** (the par value of the newly issued shares was €2,079 million and the increase of issue premium was €3,235 million).

The assets, liabilities and contingent liabilities of the acquiree were measured in the **Purchase Price Allocation (PPA) process**, establishing their fair value, and the corresponding deferred tax asset or liability was recognised, where applicable. The **adjustments totalled a net amount of €-3,474 million (€-4,029 million, gross)**.

The Group recognised a positive amount equivalent to the **negative difference arising on consolidation of €4,300 million** under Gains/(losses) on disposal of assets and others of the consolidated income statement (before and after tax), the calculation of which is detailed below:

Bankia Group equity at 31 Mar. 2021 (a)	13,088
Fair value adjustments and other¹, net (b)	(3,474)
Acquisition price (c)	5,314
Negative consolidation difference (a+b-c)	4,300

(1) See details of the adjustments in 'Appendices'.

The recognition date for accounting purposes is 31 March 2021. Therefore, the financial statements included Bankia's assets and liabilities on that date at fair value. As of the second quarter, the results generated by Bankia are included in the various lines of CaixaBank's income statement.

Labour agreement

On 1 July 2021, CaixaBank reached an agreement with union representatives representing a broad majority of employees to execute a restructuring process affecting 6,452 employees.

The income statement for the first half of 2021 includes the recognition of €1,884 million (€1,319 million, net) associated with the estimate of this agreement's cost, representing an impact on capital of -83 basis points on the CET1 ratio at 30 June 2021.

Agreement to sell Bankia business lines

CaixaBank has agreed to sell certain lines of business directly pursued by Bankia to the following investees:

- Sale of the acquiring business (POS) to Comercia Global Payments EP, SL ("CGP") for €260 million. Global Payments Inc and CABK hold an 80% and 20% stake, respectively, in CGP.
- Sale of the prepaid card business to Global Payments MoneytoPay, EDE, SL ("MTP") for €17 million. Global Payments Inc and CABK hold a 51% and 49% stake, respectively, in MTP.

The execution of the aforementioned operations, which are independent of each other, is subject to the relevant authorisations. These include CaixaBank's authorisation from the Ministry of Economic Affairs and Digital Transformation for each of the operations and the authorisation from the Securities and Exchange Commission for the purchase of the acquiring business by CGP.

The above-mentioned operations will generate a consolidated net gain of €187 million, with an impact on CET1 of +11 basis points, based on the ratio at 30 June 2021.

The operations are expected to be completed in the fourth quarter of 2021.

Attractive return and solid financials

Results and business activity

- **Attributable profit in the first half of 2021 reached €4,181 million**, after including the one-off impacts related to the merger with Bankia.

The result in the first half of the year stands at €1,278 million without considering the extraordinary aspects related to the merger (negative consolidation difference for €4,300 million and extraordinary expenses and charges to provisions for €-1,397 million, both net of tax). The result in the same period of 2020 was €205 million, impacted by the provisions made to anticipate future impacts associated with Covid-19.

The comparative proforma result in the first half of 2021 amounted to **€1,343 million versus €347 million in the same period of 2020, impacted by the provisions associated with Covid-19** (Bankia's result before the merger is included in both years . Extraordinary aspects related to the merger have been stripped out).

- **Total loans and advances to customers, gross** stands at €363,012 million, up 48.8% in the first half of 2021 (-0.8% ex Bankia).
- **Customer funds** increased by 44.7% in the first half of the year (+6.0% ex Bankia).

Risk management

- The **NPL ratio** stands at **3.6%** and the **coverage ratio** at **64%** (3.3% and 67%, respectively at 2020 year-end).
- The **cost of risk (last 12 months)** came to **0.31%**.

Liquidity management

- **Total liquid assets** amounted to **€162,731 million**, up €48,280 million in the half, mainly due to the integration of Bankia.
- The Group's **Liquidity Coverage Ratio (LCR)** was **333%** at 30 June 2021, showing an ample liquidity position (292% LCR average last 12 months) well clear of the minimum requirement of 100%.

Capital management

- The **Common Equity Tier 1 (CET1)** ratio stands at **12.9%**.

The first quarter includes the one-off impact of Bankia's integration for +77 basis points and -89 basis points from the effect of the Purchase Price Allocation (PPA), and the second quarter is affected by -87 basis points from restructuring costs (of which -83 correspond to the labour integration agreement) and -71 points from regulatory impacts.

The organic change in the first half of 2021 was of +64 basis points and +45 basis points caused by the performance of the markets and other. The impact of IFRS 9 phase in was of -16 basis points.

- The CET1 ratio without applying the IFRS 9 transitional period stands at **12.5%**.
- The **Tier 1** ratio reaches **14.8%**, the **Total Capital** ratio **17.4%** and the **leverage** ratio **5.1%**.
- The MREL ratio stood at 25.1% on RWAs, meeting the level required for 2024.

Dividend policy

As regards the dividend policy, and following the European Central Bank's announcement on 23 July 2021 of not extending its recommendation on dividend distributions beyond September 2021, the Board of Directors approved on 29 July 2021 the Dividend Policy for 2021, establishing the distribution of a cash dividend of 50% of the consolidated net profit adjusted by the extraordinary impacts from the merger with Bankia in a single payout in 2022.

Macroeconomic trends and state of the financial markets

Global economic outlook

During the first quarter of 2021, the growth data revealed that the **global economy** is entering an unequal expansion phase as a consequence of the countries implementing different measures to control the pandemic and showing an uneven vaccination rate among them, as well as due to the existing gap between the economic structure and the implemented stimulus measures. Thus, whereas China has already surpassed its pre-pandemic level by 7% and continues to grow (+0.6% quarter on quarter in the first quarter of 2021) and the United States is following an upward trend that will lead it to exceed its pre-pandemic levels in the coming months, with an accelerating growth reaching a solid 1.6% quarter on quarter (slightly below 1% in the fourth quarter 2019), the eurozone's economy declined 0.3% quarter on quarter.

However, the most recent indicators obtained in the second quarter suggest that those countries that are most advanced in the post-Covid expansion phase will maintain their positive momentum and those lagging, specifically the advanced European economies, will return to economic growth. A significant acceleration in the pace of activity is expected in the second half of 2021 aided by a further fiscal stimulus, maintaining highly accommodative financial conditions and a progress in vaccination campaigns. As a whole, worldwide growth is estimated approximately at 6% for 2021, following the sharp fall of 3.3% in 2020.

In this context, the risk balance is less unfavourable than in the past and is changing rapidly. The main downside risks to economic growth in 2021 will continue stemming from the development of the health situation. Specifically, concerns arise on the possible emergence of new mutations against which current vaccines would be less effective. A more novel concern is the risk that the economy might overheat, especially in the United States. This risk is there, and its likelihood of occurrence has increased. Therefore, in spite of the rise of US inflation having a significant transitional component and the labour market still taking time to recover completely, the Federal Reserve toughened its tone in the meeting it held in June and stated that it will raise rates in 2023 (previously not planned until 2024). With regard to the upside risks, a greater impact than expected from the fiscal stimulus packages (e.g. thanks to a higher degree of international coordination than in the past) or a further mobilisation of accumulated savings are most likely to take place.

Economic scenario - Europe, Spain and Portugal

In the **eurozone**, following a decline in activity in the first quarter of 2021, 0.3% quarter on quarter, the latest data suggest that the growth in the second quarter will be higher than 1% quarter on quarter. The fall in the first quarter was mainly due to the extension of the restrictions to address the pandemic's winter wave. However, herd immunity in risk groups significantly advanced in the second quarter, as it also generally has in the rest of the European population in recent months. This positive evolution was reflected in the ease of the pressure on the health system, and it has led to a significant loosening of the social lockdown measures.

Inflation has also risen significantly in this scenario of economic recovery, albeit in Europe this spike is mainly due to idiosyncratic factors (calendar effects, new weightings in the basket of prices, readjustments in the German VAT, rebound in oil prices), which will continue causing volatility throughout 2021 and will probably take inflation temporarily above 2.5%. This volatility will wane gradually and should not condition the ECB's actions, which will continue maintaining the accommodative financial conditions without requiring any additional measures thanks to the higher rate of asset purchases in March.

We expect the recovery to pick up in the second half of the year and to bring overall net growth for 2021 above 4%. The following are the main factors behind this recovery: i) the progress made in the vaccination campaigns; ii) maintaining the aforementioned accommodating financial environment; iii) the mobilisation of the savings accumulated during the months of lockdown; and iv) the first disbursements made within the framework of Next Generation EU (NGEU) programme.

The indicators available to date suggest that the **Spanish** economy could follow a momentum similar to that of Europe, but with further intensity. Thus, following the fall in GDP of 0.4% quarter on quarter in the first quarter of 2021, the indicators available to date reveal that the Spanish economy experienced a significant expansion of economic activity in the second quarter. In this context, the good performance of the job and consumer markets stands out, suggesting that the quarter-on-quarter rise of GDP might exceed 2.0% in this quarter.

This scenario remains closely linked to the aforementioned shared European drivers of growth. Spain will additionally experience a positive impact from the partial recovery of the expected tourist flows. In spite of the rise in Covid infections during the months of June and July possibly posing a threat to the recovery of tourism in the third quarter of 2021, the positive performance of consumption and the swift implementation of the NGEU programme will help the GDP growth rate remain at relatively high levels in the coming quarters. Therefore, we expect the GDP to grow around 6.0% in 2021, and somewhat higher and slightly above 6.0% in 2022.

In **Portugal**, the acerbity of the third wave of infections forced the implementation of much more severe containment measures than those implemented in Spain, which resulted in a sharp fall in growth in the first quarter of 2021, 3.3% quarter on quarter. All in all, data in the second quarter show a dynamic recovery of activity, and the growth rate in 2021 is likely to be around 4%. The factors involved in the Portuguese recovery are similar to those in the Spanish economy, that is, the vaccination, the release of stagnant demand, the continuation of accommodative financial conditions, the recovery of tourism and the initial disbursement of the NGEU fund.

State of the financial markets

In the year to date, **financial asset prices** have been adjusting to what has been called a reflation scenario, that is, the expectation that global economic activity will enjoy a sustained revival and that inflation will leave its weakness behind and become more buoyant, both backed by the recent fiscal and monetary stimuli. Thus, on the one hand, optimism about economic growth has driven up stocks and other risk assets, such as raw materials, whereas on the other hand, expectations of higher inflation have led to a rise in market interest rates in the long tranches of the curves. In the stock markets this readjustment favoured the sectors most sensitive to the economic cycle, which pushed up the major stock market indices.

Initially, the major central banks did not appear to be concerned about the rise in market interest rates, noting that the movement reflects an improvement in the economic outlook. However, when rates also began to be stressed in real terms and doubts on the more or less temporary nature of the current inflationary episode slightly increased, the central banks reaffirmed their commitment towards maintaining an accommodating financial environment. The main central banks, particularly the ECB for the eurozone, forecast that the tightening of prices will be temporary. All in all, as previously mentioned, the Federal Reserve has toughened its tone, and normalisation is expected earlier than initially anticipated.

Income statement

For accounting purposes, the reference date taken for the merger is 31 March 2021, after which the results generated by Bankia are included in the various items in CaixaBank's income statement, affecting the comparability of its performance. In addition, the results generated in the first half of 2021 include extraordinary income related to the merger.

Year-on-year performance

Attributable profit for the first half of 2021 amounts to €4,181 million.

The result in the first half stands at €1,278 million, stripping out the extraordinary expenses related to the merger (negative consolidation difference for €4,300 million and extraordinary expenses and charges to provisions for €-1,397 million, both net of taxes). In the same half of 2020 the result was €205 million, impacted by the provisions made to anticipate future impacts associated with Covid-19.

Total core income	4,899	4,064	835	20.6

Core income stands at €4,899 million (+20.6%), after the integration of Bankia, which mainly impacts the Net interest income and Fee and commission income as of the second quarter of 2021:

- **Net interest income** came to €2,827 million, up 16.6% with respect to the same period of the previous year. The customer spread reached 1.74% and the balance spread sheet 1.01% in the half year.
- **Fee and commission income** grew 29.5% to €1,640 million.
- **Income from Bancassurance equity investments** amounted to €115 million, up 40.5%, and includes the improved performance in 2021 and the incorporation of insurance investees of Bankia.
- **Income and expenses under insurance or reinsurance contracts** reached €318 million in the half year, up 9.0% on the previous year as a result of the increase of commercial activity.

Dividend income, which mainly included dividends from Telefónica and BFA, totalled €152 million in the first half of 2021. The 61.3% increase with respect to the same period of 2020 is mainly due to income associated with an extraordinary dividend from BFA for €54.5 million.

Share of profit/(loss) of entities accounted for using the equity method amounted to €205 million, up 112.2% with respect to the same period of the previous year as a result of the higher results attributed in a context of improvement in the economic outlook.

Trading income stands at €80 million. In 2020 it included, among others, the materialisation of unrealised gains from fixed-income assets.

Other operating income and expense includes, among other items, income and expenses of non-real estate subsidiaries, income from rentals and expenses incurred in managing foreclosed properties and contributions, levies and taxes. In its performance stands out, among others, the higher contribution to the Single Resolution Fund¹ for €181 million in the second quarter of 2021 versus the €111 million made in the previous year, reflecting the further contribution made by the company arising from the merger.

Gross income €4,883 million, up 18.6%, whereas **Recurring administrative expenses, depreciation and amortisation** increased by 17.1% (€-2,747 million), resulting in a recurring cost-to-income ratio of 54.3% versus 56.9% in the same period of the previous year.

Extraordinary expenses (€-1,970 million) include €-1,884 million, gross, associated with the cost of the labour agreement and €-85 million with other expenses incurred in the integration process.

Allowances for insolvency risk reached €-328 million, down 75.4% with respect to the first half of 2020, which includes the increased provisions for credit risk made to anticipate future impacts associated with Covid-19 (€-1,155 million).

The **cost of risk** (last 12 months) came to **0.31%**.

Other charges to provisions include in 2020 the recognition of €-109 million in connection with early retirements. In 2021 it includes €-26 million from a provision linked to the estimated restructuring costs associated with the commitments already assumed with providers within the framework of the integration.

Gains/losses on disposal of assets and others is impacted mainly by the recognition in the first quarter of 2021 of the negative consolidation difference for an amount of €4,300 million.

In addition, see "Appendices - Breakdown of the performance of the income statement by item".

(1) Including BPI's contribution to the Portuguese Resolution Fund of €8.5 million.

Comparative proforma income statement

Below is the comparative proforma income statement, which is presented with the aim of providing information on the performance of the merged entity's results. It has been drawn up by adding, in both years, the result generated by Bankia before the merger to the result obtained by CaixaBank, without considering the extraordinary aspects related thereto.

Year-on-year performance

The Comparative proforma Profit/(loss) in the first half stands at **€1,343 million**. In the same period of 2020 it reached €347 million, impacted by the provisions made to anticipate future impacts associated with Covid-19.

Income and expense under insurance or reinsurance contracts	318	292	26	9.0
Total core income	5,641	5,575	66	1.2

Core income grows 1.2% to reach €5,641 million. Its performance is impacted by the lower **Net interest income** (-2.3%), which is compensated by the growth of **Fee and commission income** (+5.5%), the recovery of **Income from Bancassurance equity investments** (+16.0%) and **Income and expenses under insurance or reinsurance contracts** (+9.0%).

Despite the increase of core income, dividend income (+60.7%) and income from equity investments (+79.0%), **Gross income** dropped 0.6% mainly due to lower Trading income (-68.4%) and higher costs recognised in Other operating income and expense (+12.2%).

Recurring administrative expenses, depreciation and amortisation slightly drop 0.6%, showing the management of the cost base and savings associated with the early retirements of 2020. The core cost-to-income ratio (54.6%) improved by 2.1 percentage points.

The performance of **Allowances for insolvency risk** (-75.1%) is impacted, among others, by the increased provisions for credit risk established in the first half of 2020, aimed to anticipate future impacts associated with Covid-19 (€-1,450 million).

Other charges to provisions included in 2020 the recognition of €-109 million in connection with early retirements.

Gains/(losses) on disposal of assets and others included, among other items, increased real estate provisions in 2020.

Comparative proforma Profit/(loss) in the second quarter of 2021 stands at €764 million versus €580 million in the previous quarter:

Gross income in the quarter amounted to €2,820 million, up 1.7%:

- **Core income** grew 0.9% thanks to the good performance of Fee and commission income (+4.3%), compensating the drop in Income from Bancassurance equity investments (-2.3%) and Income and expenses under insurance or reinsurance contracts (-6.4%). Net interest income remains fairly stable (-0.2%).
- The second quarter includes **Dividend income** for €151 million from BFA and Telefónica and higher **Share of profit/(loss) of entities accounted for using the equity method**, up 45.1%.
- Lower **Trading income** (-27.2%).
- The first quarter includes the recognition of the Spanish property tax for €-19 million, and the second quarter the contribution of €-181 million paid to the Single Resolution Fund (SRF).

Recurring administrative expenses, depreciation and amortisation remained **stable** (+0.3%).

Lower **Allowances for insolvency risk** (-47.9%) and a slight increase of **Other charges to provisions** (+10.6%).

The change in attributable profit in the second quarter of 2021 (€764 million), when compared to the same quarter of the previous year (€163 million), was mainly due to the following:

Gross income dropped 1.7% with respect to the same period of the previous year.

- Good performance of **core income**, up 1.7%, and increase in dividend income and income from equity investments.
- Lower contribution of **Trading income**, which in 2020 included the materialisation of unrealised gains from fixed-income assets.

Higher **Recurring administrative expenses, depreciation and amortisation** (+1.6%).

The performance of **Allowances for insolvency risk** is impacted in the second quarter of 2020 by the increased provisions associated with Covid-19 (€-940 million).

Net interest income

• **Net interest income** totalled €3,275 million (down 2.3% with respect to the same period in 2020). In an environment of negative interest rates, this decrease is due to:

- Lower income from loans due to the interest rate decline, impacted by the drop of the rate curve, change of structure of the lending portfolio resulting from the increase of ICO loans and loans to the public sector, and the lower income from consumer lending. This rate reduction has been partially compensated by a higher average volume.
- Lower contribution of the fixed-income portfolio due to lower volumes and the reduction of the average rate, mainly as a result of the remeasurement of assets at market value within the framework of the CaixaBank and Bankia integration.

These effects have been partially compensated by:

- Reduction of costs for financial institutions, aided by the increase of financing taken from the ECB at better conditions.
- Savings in the costs of institutional financing due to a lower price, mainly as a result of the revaluation of liabilities at market value within the framework of the CaixaBank and Bankia integration and a drop in the curve. The net interest income is also positively impacted by a lower average volume.
- Lower retail funding costs due to the drop in the rate, which compensate the higher volumes (increase in demand deposits and decrease of time deposits).

• Net interest income in the **quarter** declines 0.2% with respect to the previous quarter due to:

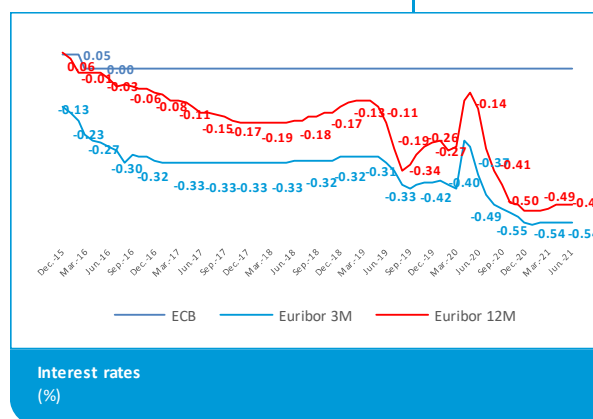

- Decline in the income of loans and advances due to a lower portfolio interest rate, resulting from the negative repricing effect as a consequence of a drop of the rate curve. A lower average volume is added to this rate reduction.
- Lower contribution of the fixed-income portfolio due to lower volumes and the reduction of the average rate, mainly as a result of the revaluation of assets at market value within the framework of the CaixaBank and Bankia integration.

These effects have been partially compensated by:

- Savings in the costs of institutional financing due to a lower price, mainly as a result of the remeasurement of liabilities at market value within the framework of the CaixaBank and Bankia integration.
- Lower costs of retail funds associated with a drop in the rate on maturity deposits.

The **customer spread** fell by 3 basis points in the quarter to 1.67%, in spite of the better performance of the cost of deposits, due to a reduction in the return on lending activity.

The **balance sheet spread** is 3 basis points below the previous quarter, reaching 0.98%.

To help readers interpret the information contained in this report, the following aspects should be taken into account:

- According to applicable accounting standards, income resulting from the application of negative interest rates should be reported in the appropriate income classification. Financial intermediaries on the assets side includes the negative interest on the balances of financial intermediaries held on the liabilities side, the most significant being income from ECB funding measures (TLTRO and MRO). Conversely, the heading financial intermediaries on the liabilities side shows the negative interest on the balances of financial intermediaries on the assets side. Only the net amount between income and expense for both headings has economic significance.
- "Other assets with returns" and "Other funds with cost" relate largely to the Group's life insurance activity.
- The balances of all headings except "Other assets" and "Other funds" correspond to balances with returns/cost. "Other assets" and "Other funds" incorporate balance items that do not have an impact on the Net interest income and on returns and costs that are not assigned to any other item.

Fees and commissions

• **Fee and commission income stand at €1,922 million**, which represents a growth of 5.5% on the same period of 2020. The quarterly performance (+4.3%), up 9.5% with respect to the same quarter of the previous year, is impacted by the recovery of the commercial activity and the good performance of the financial markets.

- **Banking services, securities and other fees** includes income on securities transactions, transactions, risk activities, deposit management, e-payments and wholesale banking.

The year-on-year change in recurring fees and commissions (+2.5%) is mainly due to the higher transaction fees and commissions, which compensate the lower e-payment activity. The quarterly change (+3.2%) is impacted by increased e-payment fees, in a quarter with less mobility restrictions (+8.3% with respect to the same quarter of the previous year).

Fees and commissions from wholesale banking drop in the half year (-16.0%) and when compared to the same quarter of the previous year (-14.7%) following the lower activity in investment banking. Good performance with respect to the previous quarter as a result of higher activity (+55.5%).

- **Fees and commissions from the sale of insurance products** grew when compared to the same period in 2020 (+9.7%) and the same quarter of the previous year (+4.4%), mainly due to the higher commercial activity in a context of fewer restrictions. With respect to the previous quarter (-13.7%), their performance is impacted by one-off income recognised in the first quarter of 2021.
- **Fees and commissions from managing long-term savings products** (investment funds, pension plans and Unit Link) stand at €640 million, due to managing higher asset volumes following the good performance of the markets and sales. Growth of 14.3% with respect to the same half of 2020, +4.7% with respect to the first quarter of 2021 and +20.1% with respect to the same quarter of the previous year:
 - **Commissions from mutual funds, managed accounts and SICAVs** came to €399 million, with a year-on-year increase of 14.3% and a growth of 5.0% in the quarter (+20.0% with respect to the same quarter of the previous year).
 - **Commissions from managing pension plans** stand at €150 million, showing a positive performance of 5.9% year-on-year and of 1.5% in the quarter (+10.6% with respect to the same quarter of 2020).
 - **Unit Link fees and commissions** reached €91 million, +32.1% on the same period of 2020 and +9.0% on the previous quarter (+39.5% with respect to the same quarter of the previous year).

Income from equity investments

- The Dividend income (€152 million) includes, in the second quarter of 2021, the dividends from Telefónica for €51 million and BFA¹ for €98 million (€50 million and €40 million, respectively in 2020). With regard to BFA, it includes an extraordinary dividend for €54.5 million.
- Attributable profit of entities accounted for using the equity method** (€217 million) recovered as a result of an improvement of the pandemic situation, up 79.0% with respect to the same half of the previous year and +45.1% with respect to the first quarter of 2021.

(1) The total dividend approved by BFA net of the tax effect totalled €119 million, of which €79 million are extraordinary dividends charged to its reserves. Out of the total dividend, gross, €98 million have been recognised as income in the income statement (€43.4 million as ordinary income and €54.5 million as one-off income) and the rest have been recognised against the cost of the investment, considering them as reserves generated prior to classifying the investment as "Financial assets at fair value with changes in other comprehensive income".

Other operating income and expense

• **Other operating income and expense** includes, among other items, income and expenses of non-real estate subsidiaries, income from rentals and expenses incurred in managing foreclosed properties and contributions, levies and taxes. With regard to the contributions and levies, its timing generates a seasonal impact on the quarterly performance under this heading:

- The contribution to the SRF¹ of €181 stands out in the second quarter of 2021, higher than the contribution recognised in the same quarter of the previous year (€171 million).
- Recognition in the first quarter of the contribution to the Portuguese banking sector for €18.8 million (€15.5 million in 2020).
- Contribution to the Deposit Guarantee Fund (DGF) of €418 million in the fourth quarter.

Other real estate operating income and expense includes in the first quarter an estimation of Spanish property tax for €19 million (€20 million in 2020).

The line Other includes €135 million in the fourth quarter of 2020 due to the recognition of income associated with the final earnout of SegurCaixa Adeslas.

(1) Including BPI's contribution to the Portuguese Resolution Fund of €8.5 million.

Allowances for insolvency risk and other charges to provisions

- **Allowances for insolvency risk** amounted to €-451 million, versus €-1,814 million in the first half of 2020, which included the recognition of €1,450 million made to anticipate future impacts associated with Covid-19.

Throughout 2020, within the framework of the pandemic, the Group changed the macroeconomic scenarios and the weighting established for each scenario employed in the estimate of expected loss due to credit risk. Given the uncertainty in the macroeconomic forecasts regarding its performance in a context of potential end of the pandemic, the scenarios and weightings in the first half of 2021 to calculate the provisions under the forward-looking approach required by IFRS 9 have not been altered with respect to the end of 2020.

The **cost of risk (last 12 months)** came to **0.41%**.

- **Other charges to provisions** shows mainly the coverage of future contingencies and impairment of other assets.

The year-on-year performance is mainly affected, among others, by the recognition of €109 million associated with the early retirements in the first quarter of 2020.

Gains/(losses) on disposal of assets and others

- **Gains/(losses) on disposal of assets and others** includes, essentially, the results of completed one-off transactions and proceeds on asset sales and write-downs.

The real estate results in the first half of 2020 is impacted by, among others, higher provisions for real estate assets.

The quarterly change in the item Other is affected by one-off income recognised in the fourth quarter of 2020:

- Gains on the partial sale of Comercia (€+420 million).
- Gains on the sale of the depository business of Bankia to Cecabank (€+155 million).
- A provision, with conservative criteria, associated with the Erste Group Bank as a result of the impact of Covid-19 on the economic context and the extended scenario of low interest rates (€-311 million).

1- In accordance with the Amendments to IFRS 4 and subsequent reviews, the Group has decided to apply temporary exemption from applying IFRS 9 to the financial investments of the Group's insurance firms for all periods that come before 1 January 2023, aligning its first application with the entry into force of the new IFRS 17: Insurance Contracts (expected on 1 January 2023), which will govern the presentation and measurement of insurance contracts (including technical provisions). Accordingly, these investments are measured in accordance with IAS 39 and grouped under the heading "Assets under the insurance business" on the balance sheet. To make the information more readily comparable, the Group has also grouped together the technical provisions corresponding to Unit Link and Flexible Investment Life Annuity (the part managed), which are now reported jointly under 'Liabilities under the insurance business'.

Loans and advances to customers

- **Loans and advances to customers, gross** stands at **€363,012 million**, up 48.8% in the year following the merger with Bankia (-0.8% organic change, that is, excluding the balances transferred from Bankia in the merger). In the quarter, Loans and advances drops 0.2%.

Changes by segment include:

- **Loans for home purchases** (-0.9% in the quarter and -2.3% organic change in the year) continues to be marked by the portfolio's repayments.
- **Loans to individuals - Other** has grown 5.7% in the quarter with a +5.5% organic change in the year, impacted by the advance of double payments made to pension holders in June for an amount of €3,000 million.

Consumer lending drops 2.7% in the organic year, affected by the mobility restrictions. Its performance in the second quarter (-1.0%) is also impacted by the transfer of €140 million to written-off loans, mainly due to the unification of criteria for the portfolio transferred from Bankia.

- Financing for **Corporates and SMEs drops 2.0% in the quarter with a -2.9% organic change in the year**, following the growth registered in the previous year, in a context where companies were managing their liquidity requirements.
- Loans to the **public sector** grew by 4.0% in the quarter with a +7.4% organic change in the year.

Customer funds

Customer funds reached €600,993 million on 30 June 2021, up 44.7% in the year, after the integration of Bankia (+6.0% organic change excluding the integration). Growth of 3.6% in the quarter.

- On-balance sheet funds stood at €434,672 million (+2.9% in the quarter and +3.3% in the year, organic).
 - **Demand deposits** amounted to €333,438 million. Its evolution (+3.9% in the quarter and +5.4% in the year, organic) was impacted by the usual seasonal effect in the second quarter of the year.
 - **Time deposits** totalled €37,754 million (-6.0% in the quarter and -17.5% in the year, organic). Their performance continues to be marked by the reduction of deposits on the renewal of maturities against a backdrop of historically low interest rates.
 - The increase of **liabilities under insurance contracts**, up 1.5% in the quarter and 3.4% in the year (organic), includes the positive net subscriptions and the impact of the favourable market effect on Unit Links.
- **Assets under management** stand at €151,456 million. Its quarterly performance (+3.8% in the quarter and +10.3% in the year, organic) is due to increased sales and the favourable market effect.
 - The **assets managed in mutual funds, managed accounts and SICAVs** stood at €105,040 million, +4.3% in the quarter and +12.1% in the year (organic).
 - **Pension plans** reached €46,416 million, +2.7% in the quarter and +6.7% in the year (organic).
- **Other accounts** includes the amount of Savings insurance marketed by Bankia (€5,072 million), which largely corresponds to the joint venture with Mapfre. It also includes temporary funds associated with transfers and collections, the performance of which in the second quarter is the result, among other factors, of the collection from filed income tax returns, which coincides with the end of the quarter.

Risk management

Credit risk quality

Non-performing loans amounted to **€14,005 million** at the end of the second quarter versus €8,601 million at the end of 2020, with their organic performance down €23 million. €72 million drop in the quarter.

The **NPL ratio** stood at **3.6%** on 30 June versus 3.3% in December, mainly due to the +28 basis points from the integration of Bankia.

Provisions for insolvency risk on 30 June stood at **€9,001 million** versus €9,415 million at the end of March and €5,755 at the end of 2020.

The **coverage ratio** at 30 June stood at **64%** versus 67% at March 2021 and December 2020.

(1) Calculations include loans and contingent liabilities.

Provisions for insolvency risk Covid-19

In the first half of 2021 the recurrent recalibration of specific provision models were resumed. These parameters had remained unchanged in the Group since March 2020, albeit they had been complemented by a collective accounting adjustment (Post Model Adjustment) amounting to €1,252 million at the end of 2020, which increased to €1,803 million after the integration of Bankia.

The **Covid-19 fund stands at €1,395 million on 30 June**, following the recurrent recalibration of the provision models in the second quarter of 2021 where a certain amount was specifically allocated, and it will be reviewed as new information becomes available.

Capital management

- The **Common Equity Tier 1 (CET1) ratio stands at 12.9%**.

The first quarter includes the extraordinary impact of Bankia's integration for +77 basis points, -89 basis points from the effect of the Purchase Price Allocation (PPA¹), and the second quarter is affected by -87 basis points from restructuring costs (of which -83 correspond to the labour integration agreement²) and -71 points from regulatory impacts.

The organic change in the half year was of +64 basis points and +45 basis points caused by the performance of the markets and other factors. The impact of IFRS 9 phasing was of -16 basis points.

- The CET1 ratio without applying the IFRS 9 transitional period reaches **12.5%**.
- The internal aim of the solvency rate CET1 approved by the Board of Directors is set between 11% and 11.5% (excluding IFRS 9) and a margin of between 250 and 300 basis points in relation to the SREP requirements.
- The **Tier 1 ratio reached 14.8%** and the **Total Capital ratio stood at 17.4%**.
- The leverage ratio stood at 5.1%.

- As for the MREL requirement, CaixaBank had a ratio of **25.1% on RWA** and 8.7% on LRE, meeting the level required for 2024 (22.95% of RWAs and 6.09% of LRE). At a subordinated level, excluding the Senior preferred debt and other pari-passu liabilities, the MREL ratio reached **22.2% of RWAs and 7.7% of LRE**, comfortably above the regulatory requirements of 16.26% of RWAs and 6.09% of LRE. The following issues of Senior non-preferred debt³ were made in the second quarter, strengthening the MREL ratios: a social bond of €1,000 million, in addition to an issue of £500 million. Following the end of June, an issue of CHF 200 million, which is also included.
- Similarly, **CaixaBank is subject to minimum capital requirements** on a non-consolidated basis. The CET1 ratio under this perimeter reached 13.8%.
- BPI** is also compliant with its minimum capital requirements. Capital ratios at a sub-consolidated level are as follows: CET1 of 14.3%, Tier1 of 15.8% and Total Capital of 17.4%.

(1) See section 'Key information - CaixaBank and Bankia merger'.

(2) See section 'Key information - Labour agreement'. Lower impact than anticipated in the Insider Information communication of 1 July of 7 basis points as a result of a better estimate of the fiscal impact of costs.

(3) See section 'Liquidity'.

- In terms of capital requirements following the integration of Bankia, the European Central Bank communicated this month of June a new P2R requirement of 1.65%. As a result, the Group must maintain capital requirements of 8.19% for CET1, 10.00% for Tier 1 and 12.41% for Total Capital¹. At 30 June, CaixaBank has a margin of 468 basis points, equating to €10,329 million, until the Group's MDA trigger.
- In addition, the information relating to the domestic systemic risk buffer after the integration of Bankia remain at 0.25% for this year, increasing to 0.375% in 2022 and 0.50% in 2023. As a result, the estimated new MREL requirements, according to current regulations, is 22.41% for Total MREL and 18.01% for Subordinated MREL, which will be applicable as of January 2022.
- The Group's current level of capital adequacy confirms that the applicable requirements would not lead to any automatic restrictions according to the capital adequacy regulations, regarding the distribution of dividends, variable remuneration, and the interests of holders of Additional Tier 1 capital securities.

As regards the dividend policy, and following the European Central Bank's announcement on 23 July 2021 of not extending its recommendation on dividend distributions beyond September 2021, the Board of Directors approved on 29 July 2021 the Dividend Policy for 2021, establishing the distribution of a cash dividend of 50% of the consolidated net profit adjusted by the extraordinary impacts from the merger with Bankia in a single payout in 2022.

Segment reporting

This section shows financial information on the different business segments of the CaixaBank Group, set up as follows:

- **Banking and Insurance:** shows earnings from the Group's banking, insurance and asset management activity mainly in Spain, as well as the real estate business and ALCO's activity in liquidity management and income from financing the other businesses.

Most of the activity and results generated by Bankia are included in the banking and insurance business. Given that the recognition date of the merger for accounting purposes is 31 March 2021, the financial statements included Bankia's assets and liabilities on that date at fair value. As of the second quarter, the results generated by Bankia are included in the various lines of CaixaBank's income statement on the Group's business segments.

Likewise, as the banking and insurance business includes the Group-wide corporate centre, the extraordinary income related to the merger has been recognised in this activity, including the negative consolidation difference.

The insurance, asset management and cards business acquired by CaixaBank from BPI during 2018 is also part of this business.

- **Equity investments:** this line of business shows earnings, net of funding expenses, from the stakes held in Erste Group Bank, Telefónica, BFA, BCI and Coral Homes. Similarly, it includes the significant impacts on income of other relevant stakes in various sectors integrated in past acquisitions.

As of 31 March, the stake held in Gramina Homes from Bankia is added, the results of which will be included in the Group as of the second quarter.

- **BPI:** covers the income from BPI's domestic banking business. The income statement shows the reversal of the fair value adjustments of the assets and liabilities resulting from the business combination and excludes the results and balance sheet figures associated with the assets of BPI assigned to the equity investments business (essentially BFA and BCI).

The operating expenses of these business segments include both direct and indirect costs, which are assigned according to internal distribution methods.

The allocation of capital to the investment business in both exercises take into account the 11.5% consumption of capital for risk-weighted assets, as well as any applicable deductions.

The allocation of capital to BPI is at sub-consolidated level, i.e. taking into account the subsidiary's own funds. The capital consumed in BPI by the investees allocated to the investment business is allocated consistently to this business.

The difference between the Group's total shareholders' equity and the capital assigned to the other businesses is attributed to the banking and insurance business, which includes the Group's corporate centre.

Banking and insurance business

The performance in the first half of 2021 stands at €3,876 million, impacted by the extraordinary expenses associated with the merger. Without considering this impact, the result stands at €973 million. In the same period of 2020 the result was €105 million, impacted by the provisions made to anticipate future impacts associated with Covid-19.

The Comparative proforma Profit/(loss) stands at €1,039 million (€248 million, net, in the same period of the previous year, impacted by the provisions associated with Covid-19)

The following highlights shaped the year-on-year proforma performance of the banking and insurance business (€1,039 million):

- **Gross income stands at €5,043 million (-4.4%):**
 - Core income remained stable at +0.4% with respect to the first half of 2020:
 - **Net interest income stands at €3,074 million (-3.4%)** due to the lower return on loans and on the fixed-income portfolio and to lower income from financing the Equity investments business. This drop in income is partially offset by higher income from the measures established by the ECB, a higher volume of loans and lower wholesale funding expenses.
 - **Income from Bancassurance equity investments amounted to €117 million, up 14.7%.**
 - **Fee and commission income reached €1,792 million (+5.1%):**
 - Practically stable banking fees and commissions (-0.3%). Increase in recurring fees and commissions (+1.9%), with higher transaction fees compensating the lower e-payment fees. In addition, lower non-recurring fees and commissions (-16.0%) due to reduced activity in investment banking.
 - Higher fees and commissions from the sale of insurance products (+10.4%) mainly due to the recovery of commercial activity.
 - Increase in commissions from long-term savings products of 14.3%, mainly due to managing more assets. Specifically, rise of Mutual funds, managed accounts and SICAVs of 14.7%, Pension plans of 5.9% and Unit Link of 31.0%.
 - **Income and expense under insurance or reinsurance contracts, which reached €318 million, shows a solid growth with respect to the first half of 2020 (+9.0%).**
 - **Trading income** stands at €+76 million, up €303 million in the same period of 2020, which included the materialisation of unrealised gains from fixed-income assets.
 - **Other operating income and expense** totalled €-341 million (€-318 million in the same period of 2020). They include the contribution to the Single Resolution Fund (SRF) of €-162 million (€-151 million in the first half of 2020).
- **Recurring administrative expenses, depreciation and amortisation** drop with respect to the first half of 2020 and amounted to €-2,965 million, down 0.5%, after an active management of the cost base.
- **Allowances for insolvency risk** amounted to €-460 million in the first half of 2021. In the first half of 2020, €-1,796 million following the establishment of a **provision for credit risk of €1,402 million to anticipate future impacts associated with Covid-19.**

The cost of risk (12 months) stands at 0.44%.
- **Other charges to provisions** in the first half of 2020 included, among others, a total of €-109 million associated with early retirements.
- **Gains/(losses) on disposal of assets and others** stood at €-39 million (€-67 million in the same period of 2020, impacted by provisions for real estate assets).

Insurance activity

The banking and insurance business includes the results of the activity carried out by the Group's various insurance firms, mainly VidaCaixa de Seguros y Reaseguros and BPI Vida e Pensões. These companies offer a highly specialised range of life insurance, pensions and general insurance products, all of which are marketed to the Group's customer base.

In addition to VidaCaixa's results, the income from Bankia investees has been included following the merger with Bankia: Bankia Mapfre Vida (49%), Bankia Pensiones (100%), Bankia Mediación (100%), SegurBankia (100%) and Sa Nostra Vida (18.7%).

The following table shows the income statement of the VidaCaixa Group for the half and the proforma income statement that includes the income from investees incorporated from Bankia:

The profit attributable to the VidaCaixa Group¹ stands at €+359 million, up 11.6% with respect to the first half of 2020:

- **Net interest income** includes the margin on life savings insurance products, which was down 5.6% with respect to the same period of the previous year.
- **Share of profit/(loss) of entities accounted for using the equity method** mainly shows the contribution made by SegurCaixa Adeslas, 49.9% of which is owned by VidaCaixa, with a significant year-on-year improvement of its attributable profit (+25.6%) given the negative impact on the valuation of financial assets in the first quarter of 2020.
- **Net fee and commission income²** is the net result of:
 - The fees and commissions received by VidaCaixa from managing Unit Linked products and pension plans.
 - The fees and commissions the insurance firms pay the banks for distributing their products.
- **Income and expense under insurance or reinsurance contracts**, which shows the margin obtained from the difference between premia and the technical provisions, claims and other expenses of life-risk products, grew 10.1% with respect to the same period of the previous year.

(1) At VidaCaixa level prior to consolidation adjustments.

(2) The commercial network in Spain also receives fees for distributing its insurance products through the branch network, although these fees are not included in the income statement for the insurance business, because they relate instead to the banking business ex insurance.

(1) The ROTE for 1H21 excludes the provision corresponding to Erste Group Bank in the fourth quarter of 2020 (€-311 million, net). The coupon for the part of the AT1 issue assigned to this business has also been deducted.

The proforma result in the first half of 2021 stood at €210 million:

- The **Net interest income** corresponds to the cost of financing the investee business. The year-on-year fall is mainly due to the reduction of the average balance financed and lower funding expenses due to adapting the rate to market conditions.
- The **Dividend income** amounted to €149 million and includes in the second quarter of 2021 the dividends from Telefónica for €51 million and BFA for €98 million (€50 million and €40 million, respectively in 2020). With regard to BFA, it includes income associated with an extraordinary dividend for €54 million.
- The **Share of profit/(loss) of entities accounted for using the equity method** stood at €82 million (€6 million in the first half of 2020 due to the lower results attributed in the context of the start of the pandemic). The proforma vision considers, in both years, the contribution of Gramina Homes, the impact of which is not significant.
- **Trading income** in both periods include the income from hedge contracts on investees.

- Extraordinary expenses of 2Q21.
- Release of provisions corresponding to the quarterly recalculation carried out by the passing of time in relation to the expected losses associated with the funds due to credit risk adjustments made at the time BPI was acquired (€32 million in 1H21 and €125 million in 1H20).
- Deduction of the coupon for the part of the AT1 issue assigned to this business.

- **Gross income** stands at €347 million, up 11.1% with respect to the first half of 2020:
 - Core income up 5.9%.
 - **Net interest income** totalled €223 million, with a 2.8% increase compared to the same period in the previous year and a 0.6% rise with respect to the previous quarter.
 - **Fee and commission income** stand at €130 million, up 10.1% on the same period of the previous year, improving in all income items. With respect to the first quarter of 2021, they rose by 4.5%, mainly due to the increase in banking fees and commissions.
 - **Trading income** amounted to €13 million in the first half of 2021. In the first half of 2020, €-12 million, which mainly included the value update of financial assets.
 - **Other operating income and expense** totalled €-32 million and included the contribution paid to the SRF and the Portuguese *Fundo de Resolução* (€-19 million and €-21 million in the second quarter of 2021 and 2020, respectively).

The first quarter of 2021 includes the contribution to the banking sector for €-18.8 million (€-15.5 million in the previous year) and €-3.6 million from the solidarity tax on the banking sector (in 2020 recognised in the third quarter).

- **Recurring administrative expenses, depreciation and amortisation** slightly dropped 1.0%. Decline in personnel expenses (-5.9%) as a result of the savings associated with the early retirements in the fourth quarter of 2020, and increase in depreciation and amortisation (+21.2%), the performance of which is impacted, among other factors, by more investments.
- **Allowances for insolvency risk** stood at €8 million (€-19 million in the same period of 2020) after including one-off income associated with the sale of portfolios in the first quarter of 2021. The first half of 2020 (€-19 million) included the provision recognised anticipating future impacts associated with Covid-19 for €-48 million.
- **Other charges to provisions** in the second quarter of 2021 and fourth quarter of 2020 included, among other items, the recognition of the costs associated with the early retirement scheme¹.

(1) The cost arising from BPI's voluntary departures and early retirements amounted to €6.6 million in the second quarter of 2021, of which €1.1 million were recognised as extraordinary personnel expenses and €5.5 million as charges to provisions.

With regard to the indicators on business activity and asset quality of BPI, the following stands out:

- **Loans and advances to customers, gross** stood at €26,441 million, up 3.1% in the year, showing a growth in all segments.
- **Customer funds stood at €34,372 million**, up 5.4% in the year as a result of the increase of On-balance sheet funds (+5.9%), especially Demand deposits (+8.9%). In addition, a good performance of Assets under management (+9.6%).
- BPI's **NPL ratio** reached 2.1%, as per the CaixaBank Group's NPL classification criteria.
- The NPL coverage ratio came to 94%.

The CaixaBank share

- The **CaixaBank share** closed trading on 30 June 2021 at €2.594/share, down 1.7% in the quarter and a cumulative rise of 23.5% in the year. In spite of a certain decline late in the half, the good performance of the markets in the first half of 2021 has boosted the selective bank benchmarks (+27.0% EURO STOXX Banks and +28.7% IBEX 35 Banks in the year) and the general indices (+14.4% EURO STOXX 50 and +9.3% IBEX 35).
- The widespread reactivation of the economic activity stands out in the second quarter thanks to the lower impact of the pandemic and the reduced mobility restrictions, mainly due to the progress in the vaccination process. This favoured the continuity of the stock market's recovery until, in June, the consolidation of the risk of inflation, the Fed's tougher tone and the threat to the efforts made to contain the advance of new coronavirus strains revived a certain uncertainty in the trading floors, driving investors away from the more cyclical stocks or those with higher exposure to the future of the tourist season.
- In the second quarter of 2021, the number of shares traded¹ dropped 29.1% with respect to the same period of the previous year and 16.5% on the first quarter of 2021. In addition, the trading volume¹ in euros was 9.2% up on the volume of shares traded in the second quarter of 2020 but 5.2% down on the previous quarter. In the first half of 2021 the trading volume in shares and euros were 30.5% and 15.6% down, respectively, when compared to the first half of 2020.

(1) Traded in trading platforms, such as: BME, BATS Chi-X, TURQUOISE and BATS Europe, among others, while excluding over-the-counter transactions. It does not include block transactions or applications.

(1) Number of shares, in thousands, excluding treasury shares.

(2) Price at close of trading.

(3) It does not include the extraordinary impacts related to the merger with Bankia.

(4) Calculated by dividing the remuneration for the financial year 2020 (0.0268 euros/share) by the closing price at the end of the period (2.594 euros/share).

Shareholder returns

- On 24 May 2021, 0.0268 euros were paid per share. This was the total shareholder remuneration charged to 2020 profits. The payment of this dividend will entail that shareholder remuneration for the 2020⁵ Fiscal Year is equivalent to 15% of the proforma adjusted consolidated net profit of Bankia and CaixaBank, in line with the recommendation issued by the European Central Bank.
- As regards the dividend policy, and following the European Central Bank's announcement on 23 July 2021 of not extending its recommendation on dividend distributions beyond September 2021, the Board of Directors approved on 29 July 2021 the Dividend Policy for 2021, establishing the distribution of a cash dividend of 50% of the consolidated net profit adjusted by the extraordinary impacts from the merger with Bankia in a single payout in 2022.

(5) Maximum distributable amount 15% of the profit of the CaixaBank Group and Bankia, adjusted by the payment of coupons of both companies, the reclassifications of OCIs against P&L and the amortisation of intangible assets with a neutral impact on capital adequacy.

Appendices

Additional information on the fair value adjustments

The Group recognised a positive amount equivalent to the **negative difference arising on consolidation of €4,300 million** under Gains/(losses) on disposal of assets and others of the consolidated income statement (before and after tax). Below is a breakdown of the negative consolidation difference and additional information on the fair value adjustments carried out in the business combination:

- 1- Including the fair value adjustments on the lending portfolio classified at amortised cost compared with the provisions constituted by the Bankia Group at 31 March 2021. This adjustment includes the effect of adjusting the lifetime expected loss.
- 2- The value of the portfolio of real estate assets has been adjusted considering appraisals available and other parameters.
- 3- Mainly includes the adjustments of financial assets and liabilities at amortised cost, as a result of measuring them at their listed price or using methodologies based on market assumptions.
- 4- Within the framework of the business combination and merger with Bankia, and considering the alignment of criteria and judgment of the administrators and the negative impact of the current economic situation, as well as the ESMA statement of 2019¹, it has deemed appropriate not to recognise tax loss carryforwards for an amount of €2,023 million. Thus, on 31 March the CaixaBank Group has unrecognised tax loss carryforwards for a total amount of €2,909 million. The current recovery period for on-balance sheet tax assets is under 15 years.
- 5- Including, among others, the book value adjustment of non-controlling interest in associates based on generally accepted methodologies; compensations linked to certain commercial arrangements; the recognition of intangible assets that meet the criteria of separability or contractual legality; the derecognition of intangible assets that have not been assigned a market value; adjustments linked to the unification of assumptions on the value of defined benefit pension commitments and other long-term obligations with employees, as well as the measurement of contingent liabilities of a legal, fiscal or employment nature from past events in which Bankia is involved.

Alternative performance measures

In addition to the financial information prepared in accordance with International Financial Reporting Standards (IFRSs), this document includes certain Alternative Performance Measures (APMs) as defined in the guidelines on Alternative Performance Measures issued by the European Securities and Markets Authority on 30 June 2015 (ESMA/2015/1057) (the "ESMA Guidelines"). CaixaBank uses certain APMs, which have not been audited, for a better understanding of the Group's financial performance. These measures are considered additional disclosures and in no case replace the financial information prepared under IFRSs. Moreover, the way the Group defines and calculates these measures may differ to the way similar measures are calculated by other companies. Accordingly, they may not be comparable.

ESMA guidelines define an APM as a financial measure of historical or future performance, financial position, or cash flows, other than a financial measure defined or specified in the applicable financial reporting framework.

In accordance with these guidelines, following is a list of the APMs used, along with a reconciliation between certain management indicators and the indicators presented in the consolidated financial statements prepared under IFRS. Figures are presented in millions of euros unless the use of another unit is stated explicitly.

Alternative Performance Measures used by the Group

1- Profitability and cost-to-income

a) Customer spread:

Explanation: difference between:

- average rate of return on loans (annualised quarterly income from loans and advances to customers divided by the net average balance of loans and advances to customers for the quarter).
- average rate for retail customer funds (annualised quarterly cost of retail customer funds divided by the average balance of those same retail customer funds for the quarter, excluding subordinated liabilities that can be classified as retail).

Note: The average balances of the analysed period are calculated on the basis of the daily closing balances of said period, except in the case of some subsidiaries, for which the average balances are calculated as the arithmetic average of the closing balances of each month. In 1Q21 the ratio does not include the results generated by Bankia in the first quarter or, for consistency purposes, the contribution of the balance items incorporated at 31 March.

Purpose: allows the Group to track the spread between interest income and costs for customers.

c) ROE:

Explanation: Profit/(loss) attributable to the Group (adjusted by the amount of the Additional Tier 1 coupon reported in shareholder equity) divided by average shareholder equity plus valuation adjustments for the last 12 months (calculated as the average value of the monthly average balances).

ROE:

- Numerator: Attributable profit/(loss) for the last 12 months, including impacts from the merger.

- Denominator: Includes as of 31 March 2021 the increase of shareholder equity from the merger with Bankia.

ROE ex M&A impacts:

- The impacts associated with the merger in the numerator are eliminated in 1Q21 and 2Q21.

Purpose: allows the Group to monitor the return on its shareholder equity.

d) ROTE:

Explanation: quotient between:

- o Profit/(loss) attributed to the Group (adjusted by the amount of the Additional Tier 1 coupon, registered in shareholder equity).
- o 12-month average shareholder equity plus valuation adjustments (calculated as the average value of the monthly average balances) deducting intangible assets using management criteria (calculated as the value of intangible assets in the public balance sheet, plus the intangible assets and goodwill associated with investees, net of provisions, recognised in Investments in joint ventures and associates in the public balance sheet).

ROTE:

- Numerator: Attributable profit/(loss) for the last 12 months, including impacts from the merger.

- Denominator: Includes as of 31 March 2021 the increase of shareholder equity from the merger with Bankia.

ROTE ex M&A impacts:

- The impacts associated with the merger in the numerator are eliminated in 1Q21 and 2Q21.

Purpose: metric used to measure the return on a company's tangible equity.

2- Risk Management

a) Cost of risk:

Explanation: total allowances for insolvency risk (12 months) divided by average of gross loans to customers plus contingent liabilities, using management criteria (calculated as the average value of the monthly closing balances).

Cost of risk:

- Numerator: Allowances for insolvency risk (12 months).

- Denominator: Includes as of 31 March 2021 the increase of loans to customers plus contingent liabilities from the merger with Bankia.

Purpose: indicator used to monitor and track the cost of allowances for insolvency risk on the loan book.

		2Q20	3Q20	4Q20	1Q21	2Q21
Numerator	Allowances for insolvency risk 12M	1,506	1,682	1,915	1,574	910
Denominator	Average of gross loans + contingent liabilities 12M	247,898	251,400	255,548	259,335	291,750
	Cost of risk (%)	0.61%	0.67%	0.75%	0.61%	0.31%

		2Q20	3Q20	4Q20	1Q21	2Q21
Numerator	Allowances for insolvency risk 12M	-	-	2,959	2,545	1,596
Denominator	Average of gross loans + contingent liabilities 12M	-	-	386,425	390,581	390,043
	Proforma cost of risk (%)	-	-	0.77%	0.65%	0.41%

b) Non-performing loan ratio:

Explanation: quotient between:

- non-performing loans and advances to customers and contingent liabilities, using management criteria.
- total gross loans and advances to customers and contingent liabilities, using management criteria.

Purpose: indicator used to monitor and track the change in the quality of the loan portfolio.

		2Q20	3Q20	4Q20	1Q21	2Q21
Numerator	Non-performing loans and contingent liabilities	9,220	9,078	8,601	14,077	14,005
Denominator	Total gross loans and contingent liabilities	260,261	259,034	260,794	390,097	389,389
	Non-performing loan ratio (%)	3.5%	3.5%	3.3%	3.6%	3.6%

c) Coverage ratio:

Explanation: quotient between:

- total credit loss provisions for loans and advances to customers and contingent liabilities, using management criteria.
- non-performing loans and advances to customers and contingent liabilities, using management criteria.

Purpose: indicator used to monitor NPL coverage via provisions.

		2Q20	3Q20	4Q20	1Q21	2Q21
Numerator	Provisions on loans and contingent liabilities	5,786	5,883	5,755	9,415	9,001
Denominator	Non-performing loans and contingent liabilities	9,220	9,078	8,601	14,077	14,005
	Coverage ratio (%)	63%	65%	67%	67%	64%

d) Real estate available for sale coverage ratio:

Explanation: quotient between:

- gross debt cancelled at the foreclosure or surrender of the real estate asset less the present net book value of the real estate asset.
- gross debt cancelled at the foreclosure or surrender of the real estate asset.

Note: Coverage solely available for real estate exposure from CaixaBank.

Purpose: reflects the coverage level via write-downs and accounting provisions on foreclosed real estate assets available for sale.

		2Q20	3Q20	4Q20	1Q21	2Q21
(a)	Gross debt cancelled at the foreclosure	1,626	1,634	1,613	1,887	1,917
(b)	Net book value of the foreclosed assets	973	973	930	1,084	1,109
Numerator	Total coverage of the foreclosed asset (a - b)	653	661	683	803	808
Denominator	Gross debt cancelled at the foreclosure	1,626	1,634	1,613	1,887	1,917
	Real estate available for sale coverage ratio (%)	40%	40%	42%	43%	42%

e) Real estate available for sale coverage ratio with accounting provisions:

Explanation: quotient between:

- Accounting coverage: charges to provisions of foreclosed assets.
- Book value of the foreclosed asset: sum of net carrying amount and the accounting provision.

Purpose: indicator of accounting provisions covering foreclosed real estate assets available for sale.

		2Q20	3Q20	4Q20	1Q21	2Q21
Numerator	Accounting provisions of the foreclosed assets	445	456	488	1,126	1,103
(a)	Net book value of the foreclosed assets	973	973	930	2,267	2,297
(b)	Accounting provisions of the foreclosed assets	445	456	488	1,126	1,103

	Real estate available for sale accounting coverage (%)	31%	32%	34%	33%	32%

3- Liquidity

a) Total Liquid Assets

Explanation: Sum of HQLAs (High Quality Liquid Assets within the meaning of Commission Delegated Regulation of 10 October 2014) plus the available balance under the facility with the European Central Bank (non-HQLA).

Purpose: shows the Bank's liquidity position.

		2Q20	3Q20	4Q20	1Q21	2Q21
(a)	High Quality Liquid Assets (HQLAs)	88,655	92,385	95,367	146,339	161,929

	Total liquid assets (a + b)	106,609	110,729	114,451	147,146	162,731

b) Loan-to-deposits:**Explanation:** quotient between:

- o net loans and advances to customers using management criteria excluding brokered loans (funded by public institutions).
- o On-balance sheet customer funds.

Purpose: metric showing the retail funding structure (enables us to measure the proportion of retail lending being funded by customer funds).

		2Q20	3Q20	4Q20	1Q21	2Q21
Numerator	Loans and advances to customers, net (a-b-c)	233,664	232,635	234,877	348,498	350,468
(a)	Loans and advances to customers, gross	242,956	241,877	243,924	363,821	363,012

Denominator	On-balance sheet customer funds	234,922	237,860	242,234	361,031	371,191
	Loan to Deposits (%)	99%	98%	97%	97%	94%

4- Stock market ratios**a) EPS (Earnings per share):** Profit/(loss) attributed to the Group (adjusted by the amount of the *Additional Tier 1* coupon, registered in shareholder equity) divided by the average number of shares outstanding.

Note: The average number of shares outstanding is calculated as average number of shares less the average number of treasury shares. The average is calculated as the average number of shares at the closing of each month of the analysed period. The impacts associated with the merger in the numerator are eliminated in 1Q21 and 2Q21.

		2Q20	3Q20	4Q20	1Q21	2Q21

Numerator	Adjusted profit attributable to the Group (a+b)	1,156	1,033	1,238	5,922	5,172
Denominator	Average number of shares outstanding, net of treasury shares (c)	5,978	5,978	5,978	5,977	6,670
	EPS (Earnings per share)	0.19	0.17	0.21	0.99	0.78
(d)	Extraordinary impact from the merger	-	-	-	4,272	2,903
Numerator	Adjusted numerator (a+b-d)	-	-	-	1,651	2,269
	EPS (Earnings per share) ex M&A impacts	-	-	-	0.28	0.34

b) **PER (Price-to-earnings ratio):** share price at the closing of the analysed period divided by earnings per share (EPS).

		2Q20	3Q20	4Q20	1Q21	2Q21
Numerator	Share price at the end of the period	1.901	1.813	2.101	2.639	2.594
Denominator	Earnings per share (EPS)	0.19	0.17	0.21	0.99	0.78

	Dividend yield	3.68%	3.86%	3.33%	1.02%	1.03%

d) **BVPS (Book value per share):** equity less minority interests divided by the number of fully diluted shares outstanding at a specific date.

Fully-diluted outstanding shares equals shares issued (less treasury shares) plus the shares resulting from a theoretical redemption/conversion of the issued exchangeable debt instruments, at a specific date.

TBVPS (Tangible book value per share): quotient between:

- o equity less minority interests and intangible assets.
- o the number of fully-diluted outstanding shares at a specific date.

P/BV: share price at the end of the period divided by book value.

P/TBV: share price at the end of the period divided by tangible book value.

The main reclassifications carried out to unify the presentation criteria in the total for 2020 are:

- Net fee and commission income: €-53 million, mainly from the recognition of certain expenses associated with e-payment fees and commissions (€-41 million, previously recognised as higher operating expenses).
- Other operating income and expense: €-146 million, of which the following stand out:
 - o €-39 million of expenses associated with the real estate activity, which were recognised in Gains/(losses) on disposal of assets and others.
 - o €-86 million of guarantee cost of monetisable DTAs, which were recognised in Income tax expense.

This document is intended exclusively for information purposes and does not aim to provide financial advice or constitutes in any way an offer to sell, exchange, or acquire, or an invitation to acquire any type of security or any financial service or product of CaixaBank, S.A. (the "Company") or of any other company mentioned herein. Anyone who purchases a security at any time must do so solely on the basis of their own judgement and/or the suitability of the security for their own purposes, and exclusively on the basis of the public information set out in the documentation drawn up and registered by the issuer in the context of the specific security issue or offer, having availed themselves of the corresponding professional advice if they consider this necessary or appropriate in accordance with the circumstances, and not on the basis of the information set out in this document.

This document may contain statements relating to projections or estimates in respect of future business or returns, particularly in relation to information regarding investments and investees, prepared primarily on the basis of estimates made by the Company. While these projections and estimates reflect the Company's current opinion or view of future business prospects, certain risks, uncertainties and other relevant factors may cause the actual results or outcome to be substantially different to what the Company currently expects. These variables include market conditions, macroeconomic matters, regulatory and government requirements, fluctuations in national or international stock markets or in interest and exchange rates, changes in the financial position or our customers, debtors or counterparties, and so forth. These risk factors, together with any others mentioned in past or future reports, could adversely affect our business and the levels of performance and results described. Other unknown or unforeseeable factors, or in which there is a degree of uncertainty about their performance and/or potential impact, could also make the results or outcome differ significantly from those described in our projections and estimates. In particular, this document contains references to the benefits identified and public results when framing the shared project involving the merger through absorption of Bankia, S.A. (absorbed company) by CaixaBank (absorbent company) announced on 18 September 2020. However, CaixaBank cannot guarantee that they materialise under the terms provided or that the Group will not be exposed to complications, expenses and risks associated with the integration process after the merger became effective on 26 March 2021.

Past financial statements and previous growth rates are no guarantee of the future performance, results or price of shares (including earnings per share). Nothing contained in this document should be construed as constituting a forecast of future results or profit. Furthermore, this document was drawn up on the basis of the accounting records held by CaixaBank and the other Group companies, and includes certain adjustments and reclassifications to apply the principles and criteria operated by the Group companies on a consistent basis with those of CaixaBank, such as in the specific case of BPI. Therefore, certain aspects of the information provided herein may not match the financial information reported by this bank. With regard to Bankia's historical information and that related to the performance of Bankia and/or the Group presented in this document, it should be considered that it has been subject to certain adjustments and reclassifications for the purpose of adapting it to the CaixaBank Group's presentation criteria. In addition, with the aim of showing the recurring performance of the results of the new company arising from the merger, a proforma income statement has been drawn up by adding the result of Bankia in the first quarter of 2021 and the entire year of 2020 to the CaixaBank Group's result. The extraordinary impacts associated with the integration of Bankia have been reported separately from the results.

The contents of this disclaimer should be taken into account by any persons or entities that may have to make decisions or prepare or share opinions relating to securities issued by CaixaBank, including, in particular, decisions reached by the analysts and investors that rely on this document. All such parties are urged to consult the public documentation and information CaixaBank submits to the Spanish securities market regulator (Comisión Nacional del Mercado de Valores, CNMV). Be advised that this document contains unaudited financial information.

This report contains a number of the Alternative Performance Measures (APMs) set out in the Guidelines on Alternative Performance Measures published by the European Securities and Markets Authority on 30 June 2015 (ESMA/2015/1057) ("the ESMA Guidelines") so as to provide a clearer picture of the company's financial performance and situation. Please be advised that these APMs have not been audited. These measures constitute additional information and should be treated accordingly. In no event are they intended to replace the financial information drawn up in accordance with International Financial Reporting Standards (IFRS). Moreover, the way the Group defines and calculates these measures may differ to the way similar measures are calculated by other companies. As such, they may not be comparable. Please consult the report's section that includes the details of the APMs used. The report also provides a reconciliation between certain management indicators and the indicators presented in the consolidated financial statements prepared under IFRS.

This document has not been approved by or filed with the Spanish National Securities Market Regulator (Comisión Nacional del Mercado de Valores, or CNMV), or by or with any other authority operating in other jurisdictions.
