I. INTRODUCTION

Article 529 *novodecies* of the current Spanish Corporation Law (*Ley de Sociedades de Capital*)¹ (hereinafter, **LSC**) sets forth the obligation for listed companies to draw up their Board of Directors' remuneration policy and to submit such policies for approval by the General Shareholders' Meeting.

The content of the remuneration policy of the Board of Directors of CaixaBank, S.A. (hereinafter, **CaixaBank**) for the years 2017-2020, both inclusive (hereinafter, the **Remuneration Policy**) is detailed below.

This Remuneration Policy includes certain amendments with regard to the Policy approved by CaixaBank's Ordinary General Meeting on 6 April 2017, detailed in the mandatory report drawn up by the CaixaBank Remuneration Committee on 16 February 2018 and in the justified proposal drawn up by the CaixaBank Board of Directors on 22 February 2018; if it is approved by CaixaBank's 2018 Ordinary General Meeting, the text of this Remuneration Policy will replace the entire Policy approved at the aforementioned 2017 Ordinary General Meeting, without prejudice to the effects produced and consolidated during its validity period.

II. PRINCIPLES OF THE REMUNERATION POLICY

The main principles of CaixaBank's remuneration are as follows:

- I. The total compensation policy is geared to encouraging conduct that will ensure long-term value generation and sustainability of results over time. The variable remuneration therefore takes into consideration not only target achievement, but also the way in which these targets are met.
- II. The professionals' individual targets are defined on the basis of the commitment they assume and establish with their superiors.
- III. The remuneration policy includes a strategy for attracting and retaining talent on the basis of the professionals becoming involved in a distinctive social and business endeavour and developing professionally under competitive conditions of overall remuneration.
- IV. As part of these overall compensation conditions, the remuneration policy aims for the amount of the fixed remuneration plus social benefits to be highly competitive, with these two remuneration components being the main basis for its capacity to attract and retain talent.
- V. The benefits provided mainly consist of the corporate pension scheme for the employees, which stands out in comparison to other Spanish financial institutions and is a key feature of their remuneration.
- VI. Fixed remuneration and social benefits constitute most of the overall remuneration, which also includes variable remuneration, of a somewhat conservative nature as it could generate risk.
- VII. The promotion system is based on the evaluation of skills, performance, commitment, and professional merits of the professionals in a sustained manner over time.
- VIII. The Senior Management's remuneration, established within the general framework defined in this remuneration policy, is approved by the CaixaBank competent governing bodies.

In addition to the above, certain main principles of the Remuneration Policy set forth in Article 33 of Law 10/2014 of 26 June on regulation, supervision and solvency of credit institutions (hereinafter, **LOSS**) and its implementing regulations, applicable to persons

¹ Royal Legislative Decree 1/2010, of 2 July, approving the revised text of the Spanish Corporation Law.

whose work has a significant impact on the risk profile of the entity and its group (hereinafter, the **Identified Group**), apply to the members of the Board of Directors.

III. **NON-EXECUTIVE DIRECTORS' REMUNERATION**

1. **REMUNERATION COMPONENTS**

In line with the Company By-laws, the current remuneration of the members of the CaixaBank Board of Directors in their capacity as such (hereinafter, **Non-executive Directors**) consists solely of fixed components. Non-executive Directors maintain a merely organic relationship with CaixaBank and therefore have not signed any contracts with the Company for performing their functions or are acknowledged payment of any kind on termination of their directorships.

The system provided for in the Company By-laws thus establishes that the remuneration of CaixaBank directorships should consist of a fixed annual amount to be determined by the General Meeting, which remains in force until the General Meeting agrees to modify it.

The amount established by the General Shareholders' Meeting is intended to remunerate the Board of Directors and its Committees and it is distributed as the Board deems appropriate, on proposal by the Remuneration Committee, both as regards distribution among the members, particularly the Chairman, in accordance with the duties and dedication of each one and whether they belong to the different Committees and with the frequency and form of payment via statutory or other types of remuneration. Consequently, the distribution may give rise to different remunerations for each of the Directors.

Any future proposal for share-based remuneration must be approved by the CaixaBank General Meeting, in accordance with the precepts of the LSC and the Company By-laws.

Finally, the Non-executive Directors are insured parties in the third-party liability insurance policy for CaixaBank Group administrators and managers, covering any liabilities in which they may incur as a result of performing their duties.

2. **ADDITIONAL REMUNERATION OF THE CHAIRMAN OF THE BOARD OF DIRECTORS**

The Chairman of the CaixaBank Board of Directors receives an additional fixed remuneration, established for holding this position. This additional remuneration is justified by the special dedication required for performing the duties inherent to his post as Chairman, as established in the LSC and, particularly, in the Company By-laws, at a group with the size and complexity of CaixaBank.

Firstly, the LSC vests the Chairman with the ultimate responsibility for the efficient functioning of the Board of Directors and for calling and chairing the Board meetings, establishing the agenda of the meetings and directing the discussions and debates; the Chairman must also ensure that the Directors receive the sufficient information beforehand to be able to discuss the agenda and encourage debate by the Directors and their active involvement at the meetings, ensuring their freedom to express their opinions. The Chairman of the CaixaBank Board of Directors also chairs the Company's General Shareholders' Meetings.

Secondly, as established in the Company By-laws and notwithstanding the powers of the Chief Executive Officer and any powers and delegations that may have been established, the Chairman is also responsible for the institutional representation of CaixaBank and its subsidiary companies (without prejudice to the functions attributed to the Board of Directors in this regard), for representing the Company before the sector's corporate bodies and representatives, as established in their By-laws, for affixing the Company's official signature and thus for signing on the Company's behalf all legally or statutorily required agreements,

contracts, labour agreements or other legal instruments with local authorities and other entities, and for formally representing the Company with regard to authorities, entities and external bodies, either Spanish or foreign.

Despite the fact that the aforementioned duties cannot be considered executive functions due to their organic or representative nature, from a quantitative viewpoint they require great dedication and are much more intensive than those of the other members of the Board of Directors (except those that are also responsible for executive functions).%

3. ANTICIPATED REMUNERATION FOR 2017 AND SUBSEQUENT FINANCIAL YEARS

a) Anticipated remuneration for 2017 and 2018

The maximum amount allocated to the remuneration of Directors for their directorships only, without taking into consideration their executive functions, was €3,925,000 in the financial year 2017, this amount having been approved by the 2017 Ordinary General Shareholders' Meeting.

The current distribution among the members, agreed by the Board of Directors, is as follows:

- I. €90,000 per year for each member of the Board of Directors.
- II. An additional €30,000 per year for each member of the Appointment Committee or Remuneration Committee.
- III. An additional €50,000 per year for each member of the Executive Committee, the Audit and Control Committee or the Risk Committee, due to the responsibility and dedication required.
- IV. An additional €1,000,000 per year for the Chairman of the Board of Directors.
- V. The remuneration of the Chairpersons of the Board of Directors' Committees will always be 20% higher than that of the other members.
- VI. The Lead Independent Director will receive a remuneration of €38,000 per year.

The Lead Independent Director's remuneration was approved by the Board of Directors on 23 November 2017, within the overall limit approved by the General Meeting.

The maximum amount referred to above shall remain applicable in the future unless the General Shareholders' Meeting approves a different amount. Likewise, the distribution of the remuneration among the Board members shall also remain in force unless the Board of Directors resolves otherwise, according to the powers conferred upon the Board of Directors by the Spanish Corporation Law and the Company's Bylaws.

Among the main Spanish credit entities, CaixaBank is the credit entity with the lowest remuneration amounts for non executive Directors.

b) Anticipated remuneration in subsequent financial years

For Directors in their capacity as such (i.e. without taking into account the remuneration of the executive functions of the Executive Directors), their remuneration in subsequent years will be adapted to the system defined in the Company's Bylaws at any given time and to the maximum amount of remuneration established by the General Meeting. Consequently, this remuneration policy will be deemed modified as regards the maximum amount of remuneration for the Directors in their capacity as such, in case the General Meeting should agree on a maximum amount other than that established in section III.3.a).

Any potential proposal for remuneration based on the system set forth by the Company's Bylaws will have to be approved in accordance with the provisions of the LSC and the

Company's By-laws, and in the case of share-based systems it will require approval by CaixaBank's General Meeting.

IV. EXECUTIVE DIRECTORS' REMUNERATION

1. GENERAL DESCRIPTION AND RELATIVE IMPORTANCE OF THE FIXED AND VARIABLE COMPONENTS

The LSC and CaixaBank's Company By-laws acknowledge that the Executive Directors should receive remuneration for their executive functions in addition to that received for their directorships, mainly including:

- I. Fixed remuneration according to their level of responsibility and professional career, constituting a significant part of the total compensation.
- II. Variable remuneration, mainly in the form of a bonus, linked to the achievement of previously established targets and prudent risk management.
- III. Social insurance and other social benefits.

In addition to the above, a long-term incentive based on CaixaBank instruments or referenced at their value (hereinafter, **LTI**) may be established for all or some of the Executive Directors as a variable component of their remuneration, as established in section IV.4.

In accordance with the objective of achieving a fair, prudent balance between the fixed and variable components of the remuneration, the fixed remuneration amounts for the Executive Directors must be sufficient, and the percentage of variable remuneration in bonus form with regard to the fixed annual remuneration is relatively low in general, not normally exceeding 40%, without taking into account other possible variable components such as the LTI.

The variable component shall not exceed 100% of the fixed component of the total amount of the remuneration of each Director, unless the General Shareholders' Meeting passes a resolution increasing it to a higher level, that in any event shall not exceed 200% of the fixed component, all in accordance with the applicable form, requirements and proceedings set forth in the LOSS.

The classification of the remuneration as a fixed or a variable component shall be done following the applicable provisions on remuneration of credit entities.

2. FIXED REMUNERATION COMPONENTS

a) Fixed remuneration

The fixed remuneration of the Executive Directors and its updates will mainly be based on the level of responsibility and professional track record, combined with a market focus in accordance with salary surveys and specific *ad hoc* studies. The salary surveys and specific *ad hoc* studies in which CaixaBank participates are conducted by top-level specialist companies, the sample for comparison being from the financial sector of the market on which CaixaBank operates and comparable IBEX 35 companies.

As an illustration, CaixaBank has been using as sample of the financial sector, the publicly available information on the executive Directors of the financial companies of the IBEX 35 (Santander, BBVA, Bankia, Banco Sabadell, Banco Popular and Bankinter). From 2018 on it will also use European banks such as ABN Amro, Commerzbank, Crédit Agricole, Deutsche Bank, Erste Group, KBC Groep, Lloyds Banking Group, Natixis Raiffeisen, Royal Bank of Scotland or SwedBank. As multisectoral sample, CaixaBank has been using the publicly available information on executive Board members of an important number of companies

that can be compared to CaixaBank in terms of size (stock market capitalisation, assets, turnover and number of employees).

b) Remuneration for holding posts at investee companies

The Executive Directors' fixed remuneration includes the remuneration they may receive for holding managerial posts at CaixaBank Group companies or at other companies in CaixaBank's interests, this remuneration being deducted from the liquid amount to be paid by CaixaBank as fixed remuneration.

c) Other fixed remuneration components

As a fixed component of their remuneration, the Executive Directors' respective contracts include pre-established contributions to social insurance systems and savings plans, which are explained in more detail in section IV.7.

CaixaBank may also make the Executive Directors beneficiaries of medical insurance for themselves and their close family and of other types of non-cash remuneration common in the sector (use of a car or home or similar advantages), in accordance with their professional status and with the standards set by CaixaBank at any given time for the segment of professionals to which they belong.

3. VARIABLE REMUNERATION IN BONUS FORM

a) General aspects

The Executive Directors may be granted variable remuneration in the form of a risk-adjusted bonus, based on measurement of their performance. The performance is measured by ex-ante and ex-post adjustment of the remuneration, as a form of applying risk control.

b) Performance measurement

Quantitative (financial) and qualitative (non-financial) criteria, which must be specified and clearly documented, are used for performance measurement and assessment of individual results.

The variable remuneration applicable to Executive Directors is determined on the basis of an objective bonus established for each of them by the Board of Directors on proposal by the Remuneration Committee, and a maximum achievement percentage of 120%. The level of achievement is set according to the following parameters measured:

- 50% for individual targets
- 50% for corporate targets

The 50% corresponding to corporate targets is set for each financial year by the CaixaBank Board of Directors, on proposal by the Remuneration Committee, and its weighting is distributed among the measurable items according to the Entity's main goals. These components may consist of all or some of the following, for example, among other possible items:

- ROTE
- Core efficiency ratio
- Changes in troubled assets
- Risk appetite framework
- Regulatory compliance
- Quality

In any case, the proposal for the composition and weighting of the corporate targets is established as set forth in the LOSS and its implementing regulations and may vary depending on the Executive Director in question.

The part consisting of individual targets (50%) must be globally distributed over the targets linked to CaixaBank's strategy. The final assessment to be made by the Remuneration Committee, after consultation with the Chairman, may vary by +/- 25% depending on the objective assessment of the individual targets, in order to include the qualitative assessment of the Executive Director's performance and take into account any exceptional targets that may arise during the year and were not established at the start.

The final determination of the achievement of the variable remuneration earned will be approved by the Board of Directors on proposal by the Remuneration Committee.%

c) Special cases of restrictions

The variable remuneration will be subject to reduction if at the time of the performance assessment the competent authority has imposed a requirement or recommendation for CaixaBank to restrict its dividend distribution policy, or if this should be required by the competent authority by virtue of the powers granted to it by the regulations, all by virtue of the provisions of Royal Decree 84/2015² and Circular 2/2016³.

d) Deferral percentage

The deferral percentage applicable to the Executive Directors' variable remuneration will be 60%.

This deferral percentage may be subject to modification in accordance with any absolute or relative thresholds set by the competent authorities for determining the "particularly high variable remuneration amount", in furtherance of the provisions of the EBA Guidelines⁴.

e) Deferral period

The non-deferred part of the variable remuneration earned must be paid on the date of the bonus payment (hereinafter, **Initial Payment Date**).

50% of the amount to be made as the initial payment is to be paid in cash, and the remaining 50% in instruments.

Except in the cases for reduction described in section IV.5, the deferred part of the risk-adjusted variable remuneration is to be paid in five instalments, the dates and amounts for which are established below⁵:

- 1/5 12 months after the Initial Payment Date
- 1/5 24 months after the Initial Payment Date
- 1/5 36 months after the Initial Payment Date
- 1/5 48 months after the Initial Payment Date

² Royal Decree 84/2015 of 13 February, implementing Law 10/2014 of 26 June regarding regulation, supervision and solvency of credit institutions

³ Bank of Spain Circular 2/2016 of 2 February regarding supervision and solvency and addressed to credit institutions, completing the Spanish legal system's adaptation to Directive 2013/36/EU and Regulation (EU) No. 575/2013.

⁴ Guidelines on adequate remuneration policies in accordance with Articles 74, section 3, and 75, section 2, of Directive 2013/36/EU and reporting in accordance with Article 450 of Regulation (EU) No. 575/2013 (EBA/GL/2015/22)

⁵ With regard to the variable remuneration earned in the financial year 2016, the three-year deferral period established in the Board of Directors' Remuneration Policy approved by the CaixaBank General Meeting on 23 April 2015 will continue to be temporarily applicable; consequently, this five-year deferral period will only be applicable to variable remuneration earned in 2017 and subsequent years.

- 1/5 60 months after the Initial Payment Date

f) Payment in cash and instruments

50% of the amount to be paid on each of the dates indicated in the section above will be paid in cash and the remaining 50% will be paid in non-cash instruments, once the applicable taxes (withheld or on account) have been paid.

When the payment is to be made in non-cash instruments, it will preferably be made in CaixaBank shares. However, CaixaBank may deliver other instruments admitted for payment of the variable remuneration, under the terms and requirements established in section 1.I) of Article 34 of the LOSS, in Delegated Regulation (EU) No. 527/2014⁶ (hereinafter, **Regulation 527/2014**) and in the EBA Guidelines.

g) Tax Withholding Policy

All non-cash instruments delivered are subject to a withholding period of one year from their delivery, during which they will not be available to the employee who has earned them.

During the withholding period, the employee may exercise all the rights conferred by the instruments as the holder of the same.

h) Payment of returns on cash and deferred non-cash instruments

During the deferral period, the ownership of both the instruments and the cash whose delivery has been deferred will correspond to CaixaBank.

On application of the principles of contractual law applicable in Spain, and particularly of the bilateral nature of the contracts and the balanced accrual of the reciprocal benefits, the deferred cash will earn interest for the employee, calculated by applying the interest rate corresponding to the first tranche of the employee's holding account. The interest will only be paid at the end of each payment date, and will be applied to the cash amount of the variable remuneration to effectively be received, net of any reduction that may apply in accordance with the provisions of section IV.5.

With regard to the return on the instruments, in compliance with the EBA Guidelines, the Entity will not pay any interest or dividends for deferred instruments either during or after the deferral period that are earned from 1 January 2017.

i) Termination or suspension of the professional relationship

Neither the termination or suspension of the professional relationship nor cases of termination due to disability, early retirement, retirement or partial retirement will be grounds for interrupting the variable remuneration payment cycle, without prejudice to the provisions concerning reduction and recovery of variable remuneration established in section IV.5.

In the case of death, the Human Resources Department (hereinafter, **HR**), together with the Risk Department, will determine and, where applicable, propose the settlement process for the payment instalments pending in accordance with criteria compatible with the main principles of the LOSS, its implementing regulations and the Remuneration Policy.

⁶ Commission Delegated Regulation (EU) No. 527/2014 of 12 March 2014, supplementing European Parliament and Council Directive 2013/36/EU with regard to the regulatory technical standards specifying the types of instruments that adequately reflect the entity's credit quality from a business continuity perspective and are adequate for purposes of variable remuneration.

j) Special situations

In unexpected special situations (i.e. corporate transactions affecting the ownership of the instruments deferred or delivered), specific solutions must be applied in accordance with the LOSS, its implementing regulations and the principles of the Remuneration Policy, so as not to artificially dilute or alter the value of the considerations in question.

k) Commitment period

In order to receive the variable remuneration bonus, the Executive Director must maintain his/her service relationship with CaixaBank at 31 December of the year in which he/she has earned this variable remuneration.

l) Incompatibility with personal coverage or tax avoidance strategies

In accordance with the provisions of section 1.o) of Article 34 of the LOSS and the EBA Guidelines, the Executive Directors undertake not to use personal coverage or insurance strategies related to the remuneration that undermine the effects of alignment with the sound management of the risks giving rise to their remuneration systems.

Furthermore, CaixaBank will not pay the variable remuneration through instruments or methods designed to infringe, or resulting in the infringement of, the remuneration requirements applicable to the Executive Directors as members of CaixaBank's Identified Group.

4. LONG-TERM INSTRUMENT-BASED INCENTIVES

All or some of the Executive Directors may receive additional remuneration through a long-term incentive plan based on non-cash instruments, as a multi-year type of variable remuneration.

The LTI may be structured as a variable remuneration scheme enabling the participants to receive an amount in shares or other instruments, stock options or cash, after a certain period of time, providing they comply with certain conditions established in the LTI itself.

The specific terms of the LTI (including those concerning the payment cycle and reduction and recovery clauses) will be as established by the CaixaBank Board of Directors, on proposal by the Remuneration Committee, in the corresponding agreements and implementing documents regulating them, which must adapt to and be compatible with the principles of the Remuneration Policy and be subject to approval by the CaixaBank General Meeting whenever mandatory.

5. REDUCTION AND RECOVERY OF VARIABLE REMUNERATION

a) Cases for reduction

In accordance with the LOSS, the Executive Directors' right to receive the variable remuneration payments, including payments pending, in either cash or instruments, will be totally or partially reduced in cases of the poor financial performance of CaixaBank as a whole or that of a particular division or area of the same or of the exposures generated. For these purposes, CaixaBank must compare the assessment of the performance with the subsequent performance of the variables that contributed to achieving the objectives.

Cases for reduction in the variable remuneration are as follows:

- i. Significant defects in the risk management undertaken by CaixaBank, or by a business unit or risk control unit, including reservations in the external auditor's audit

- report or circumstances undermining the financial parameters serving as a basis for calculation of the variable remuneration.
- II. An increase in capital requirements for CaixaBank or one of its business units, not anticipated when generating the exposures.
 - III. Regulatory sanctions or legal convictions for acts that could be attributable to the unit or employee liable for the same and to the Executive Director.
 - IV. Non-compliance with the entity's internal regulations or codes of conduct, particularly including the following:
 - a. Regulatory non-compliance attributable to them classified as serious or very serious infringement.
 - b. Non-compliance of internal regulations classified as serious or very serious.
 - c. Non-compliance with the suitability and rigour requirements they must comply with.
 - d. Regulatory non-compliance attributable to them which, whether or not it entails losses, could put the solvency of a business line at risk and, in general, involvement in or responsibility for any conduct generating major losses.
 - V. Irregular conduct, whether individual or as a group, particularly taking into account the negative effects deriving from the marketing of unsuitable products and the Executive Directors' responsibility for making such decisions.
 - VI. Fair disciplinary dismissal or, in the case of commercial contracts, for a justified cause⁷ at the entity's request (a total reduction will be applicable in this case).
 - VII. Whenever the payment or consolidation are not sustainable in accordance with CaixaBank's financial situation overall, or are not justified on the basis of CaixaBank's overall results, those of the business unit and those of the Executive Director in question.
 - VIII. Any other additional cases expressly provided for in the corresponding contracts.
 - IX. Any other cases established in the applicable legislation or by the regulatory authorities on exercising their powers of regulatory or executive development or interpretation of regulations.

b) Cases for recovery

In cases in which the causes giving rise to the situations described in section a) above were produced prior to the payment of any amount of the variable remuneration already having been made but if this situation had been taken into account all or part of the aforementioned payment would not have been made, the Executive Director must return the unduly received part of the variable remuneration to the corresponding CaixaBank Group company, together with any returns he/she may have received by virtue of the provisions of section IV.3.h). These amounts are to be returned in either cash or instruments, as applicable.

In particular, situations where the Executive Director has significantly contributed to the deficient or negative financial results being achieved will be considered especially serious, as will cases of wilful misconduct or serious negligence leading to significant losses.

c) Common standards

The Remuneration Committee is responsible for proposing to the Board of Directors that the right to receive the deferred amounts should be reduced or forfeited, or totally or partially recovered, in accordance with the characteristics and circumstances of each specific case.

⁷ A justified cause is taken to be any serious and culpable breach of the duties of loyalty, diligence and good faith governing the employee's performance of his/her duties at the CaixaBank Group, and any other serious and culpable breach of the obligations assumed by virtue of his/her contract or any other organic relationships or services that may be established between the employee and the CaixaBank Group.

In application of the EBA Guidelines, the cases for reduction of the variable remuneration will be applicable during the entire deferral period for the remuneration in question. The cases for recovery of the variable remuneration will be applicable for a period of one year, counting from the date of payment of the variable remuneration, except for cases of fraud or serious negligence, in which case the general provisions of the civil or labour legislation regarding expiry will apply.

The implementing regulations of the LTI must establish specific rules regarding the reduction or recovery of benefits by the Executive Directors, adapting the cases for reduction and recovery established in the Remuneration Policy to the nature and purposes of the LTI, to the necessary extent.

d) Main principles of labour law or contractual law

In accordance with the LOSS, proposals for reduction or recovery of variable remuneration must take into account the main principles of contractual or labour law.

6. GUARANTEED VARIABLE REMUNERATION

The Executive Directors will not receive guaranteed variable remuneration of any kind. Nevertheless, the entity may exceptionally consider paying it in the case of new appointments or recruitments, providing the entity has a sound capital base and it applies to the first year of validity of the contract only.

7. SOCIAL INSURANCE AND LONG-TERM SAVINGS PLANS

a) General description

Executive Directors with an employment contract may be entitled to a social insurance system complementing the ordinary system for all CaixaBank employees. If they have signed a commercial contract, they may be entitled to specific social insurance plans with effects equivalent to the complementary social insurance system.

The commitments assumed with regard to the Executive Directors may consist of specific contributions for retirement, disability and death contingencies, and entitlement to coverage for specific benefits for disability and death contingencies may also be granted. These commitments will be implemented through an insurance contract.

b) Non-discretionary nature

Except as provided in section e) below, the benefit or contribution scheme for the social insurance system applicable to Executive Directors may not be configured as a discretionary benefit: it must be objectively applied in accordance with employee's executive directorship or similar circumstances determining the restatement of the terms of remuneration, in the form of a lump sum or by reference to fixed remuneration, as established in their respective contracts.

Thus, the amount of the contributions or the degree of coverage (i) must be pre-established at the start of the financial year and suitably reflected in the corresponding contracts, (ii) may not derive from variable parameters (such as achieving targets, milestones, etc.), (iii) must not result from extraordinary contributions (in the form of bonuses, prizes or extraordinary contributions made in the years immediately prior to retirement or termination), and (iv) must not be related to substantial changes in retirement conditions, including changes deriving from merger processes or business combinations.

c) Avoiding duplication

The amount of the contributions to be made by CaixaBank to social insurance systems must be reduced by the amount of any contributions made to any equivalent instruments or policies that may be established for posts held at group companies or other companies in CaixaBank's interests. The same applies to benefits, which must be adjusted to avoid any double coverage.

d) Rights consolidation system

The social insurance system for Executive Directors acknowledges the consolidation of financial rights in the case of cessation or termination of the employment relationship before the occurrence of the contingencies covered, unless the cessation or termination results from disciplinary dismissal declared fair in the case of employment contracts or grounded in the case of commercial contracts, according to the definition of this term in section IV.5, or from other specific causes expressly included in the contracts.

e) Variable-based mandatory contributions

Notwithstanding the provisions of section b) above, in compliance with Circular 2/2016, 15% of the agreed contributions to complementary social insurance plans will be considered the target amount (and the remaining 85% will be considered a fixed component of the remuneration).

This amount will be determined on the basis of the same principles and procedures as those established for variable remuneration in the form of a bonus in section IV.3, on the sole basis of the individual assessment parameters, and it will be contributed to a Discretionary Pension Benefit Policy.

The contribution will be considered deferred variable remuneration for all purposes established in Circular 2/2016, and the Discretionary Pension Benefit Policy will thus contain the necessary clauses for it to be explicitly subject to the cases for reduction established in section V.5. for variable remuneration in bonus form. It will also form part of the total amount of variable remuneration for purposes of limits or any others that may be established.

In accordance with section 1.ñ) of Article 34 of the LOSS, if the Executive Director leaves the entity due to retirement or for any other reason, the discretionary pension benefits will be subject to a withholding period of five years. The five-year withholding period referred to in the previous paragraph will be counted from the date on which the employee no longer provides services to the entity for whatever reason. During the withholding period, the entity will apply the same requirements as in the clauses for reduction and recovery clauses of remuneration already paid, as established in section IV.5.

8. PAYMENT FOR ABANDONMENT OF PREVIOUS CONTRACTS

If remuneration packages should be agreed on in connection with contracting premiums or other forms of compensation or payments for abandonment of previous contracts, these packages must be adapted to the entity's long-term interests by establishing withholding, deferral, reduction, return and recovery provisions equal to those established in the Remuneration Policy, in line with the LOSS.

9. WITHHOLDING PREMIUMS

Any withholding premiums that may exceptionally be agreed on between the entity and an Executive Director will be subject to the terms and requirements established in the EBA Guidelines and similar principles to those applicable to variable remuneration in the Remuneration Policy.

10. OTHER BENEFITS

The Executive Directors are eligible for the generally established benefits policy for CaixaBank Group employees, which is geared to providing competitive company benefits based on use of group synergies (i.e. preferential financial conditions or healthcare).

The Executive Directors will be insured parties on the third-party liability policy for administrators and managers of the CaixaBank Group companies, to cover any liabilities in which they may incur while performing their duties, all in accordance with the subjective scope defined in the corresponding policies subscribed.

11. PAYMENTS FOR ADVANCE TERMINATION

a) Amount and limits of indemnity payments for contract termination

The amount of the indemnity payments to be made for termination of the Executive Directors' contracts will be established at each given moment and must not exceed the legally established limits for the maximum ratio of variable remuneration, taking into account the criteria established by the EBA Guidelines.

Ordinary payments associated with the duration of the applicable prior notice periods will not be considered indemnity payments for dismissal.

b) Post-contractual non-competition agreements

The Executive Directors' contracts may contain post-contractual non-compete clauses, the indemnity payments for which may consist of amounts that in general may not exceed the sum of the fixed components of the remuneration the Executive Director would have received if he/she had remained at the entity; the amount of compensation will be divided into future periodic instalments, payable during the period of duration of the non-competition agreement.

c) Deferral and payment

The payment of the amounts payable in case of advance termination that are considered variable remuneration in accordance with the applicable regulations and the EBA Guidelines will be subject to deferral and payment as stated in the Remuneration Policy for variable remuneration in bonus form in section IV.

d) Cases for reduction and recovery

In accordance with the LOSS, any proposals for the reduction or recovery of payments for advance termination must take into account the main legal principles with regard to contractual or employment matters.

12. REMUNERATION FOR 2017 AND SUBSEQUENT FINANCIAL YEARS

a) Remuneration for 2017

For the financial year 2017, the remuneration to be paid to the Executive Directors (in 2017, Mr. Gonzalo Gortázar Rotaeché as CEO and Mr. Antonio Massanell Lavilla as Executive Vice-Chairman) is as established in the Remuneration Policy approved at the Ordinary General Meeting of 6 April 2017, which is duly specified in the Annual Remuneration Report for the said financial year.

b) Fixed remuneration in cash for 2018

For the financial year 2018, the fixed remuneration to be paid in cash to the current Executive Directors is as follows:

I. Mr. Gonzalo Gortázar Rotaeché – Chief Executive Officer	€2,261,200
II. Mr. Tomás Muniesa Arantegui – Vice-Chairman ⁸	€1,543,835

The estimated amount of remuneration for the posts held at group companies or in CaixaBank's interests, in accordance with the posts held at 31 December 2017, is as follows: €1,075,623 for Mr. Gonzalo Gortázar Rotaeché, the estimate for the cash amounts to be paid to Mr. Gonzalo Gortázar Rotaeché by CaixaBank in 2018 thus being €1,185,937; for Mr. Tomás Muniesa Arantegui it would be the result of subtracting the sum of the amounts received for holding these posts between the date of commencement of his service contract (as defined in note 8) and 31 December 2018 from the fixed cash remuneration prorated between the commencement of his service contract and 31 December 2018.

The remuneration for both these Executive Directors for holding a post on the CaixaBank Board of Directors or its Committees, anticipated as €140,000 for Mr. Gonzalo Gortázar Rotaeché and €140,000 for Mr. Tomás Muniesa Arantegui⁹ in 2018, is deducted from the fixed remuneration for holding the post of Executive Director.

⁸ On 21 December 2017, the Board of Directors of CaixaBank agreed to appoint Mr. Tomás Muniesa Arantegui as a new member of the Board of Directors and Vice-Chairman of the same, in full continuity of his duties as a Managing Director of the Entity. Mr. Tomás Muniesa Arantegui's effective appointment as a member and Vice-Chairman of the Board of Directors was subject to a positive suitability assessment by the European Central Bank, the acceptance of his appointment by Mr. Tomás Muniesa Arantegui and the entry of his post in the Bank of Spain's Register of Managers. Consequently, the commencement of the corresponding service contract described in sections 3 and 4 of Article 249 of the LSC, approved by the Board of Directors on 21 December 2017, was subject to the entry of his post in the Bank of Spain's Register of Managers, after having received the European Central Bank's positive suitability assessment and after Mr. Tomás Muniesa Arantegui's acceptance of the post, providing this entry was made within the period ending on 30 June 2018. On the date of the Board of Directors' approval of this Remuneration Policy, the entry of the post in the Bank of Spain's Register of Managers has not yet taken place. Consequently, for the financial year 2018 all the remuneration items established on an annual basis must be taken as being prorated in the period between the entry of his post in the Bank of Spain's Register of Managers and 31 December 2018. Between 1 January 2018 and the date of this entry in the Register of Managers, the senior management employment contract signed between Mr. Tomás Muniesa Arantegui and CaixaBank continues to be applicable, expiring on this date.

⁹ For the financial year 2018, the figure will be prorated between the commencement of the service contract and 31 December 2018.

Mr. Gonzalo Gortázar's annual target bonus for 2018 is €708,800 and that of Mr. Tomás Muniesa Arantegui is €127,160¹⁰. The part corresponding to the corporate targets (50%) consists of the following parameters:

- II. Core efficiency ratio: with a 10% weighting and a minimum achievement level of 80% and a maximum of 120%.
- III. Changes in troubled assets: with a 10% weighting and a minimum achievement level of 80% and a maximum of 120%.

The part consisting of individual targets (50%) will have a minimum achievement level of 60% and a maximum of 120% and will be globally distributed over the targets linked to CaixaBank's strategy. In all cases, failing to reach the minimum achievement level will imply that a bonus of zero has been earned for each of the individual indicators or targets.

d) Deferred payment of cash returns

The anticipated payments for the items stated in section 3.h) for the financial year 2018 are as follows:

- | | |
|----------------------------------|------|
| I. Mr. Gonzalo Gortázar Rotaache | €510 |
| II. Mr. Tomás Muniesa Arantegui | €180 |

e) Long-term share-based incentive plan

Mr. Gonzalo Gortázar Rotaache and Mr. Antonio Massanell Lavilla, together with the members of the Management Committee and the rest of the executive team and key employees of the Entity, are beneficiaries of the LTI approved by the CaixaBank General Shareholders' Meeting on 23 April 2015; the LTI covers the four-year period between the financial years 2015 and 2018, both inclusive, and is linked to the Strategic Plan¹¹.

¹⁰ For the financial year 2018, the figure will be prorated between the commencement of the service contract and 31 December 2018.

¹¹ As established in the service contract, Mr. Tomás Muniesa Arantegui's status as a beneficiary of CaixaBank's Long-term Variable Remuneration Plan for 2015-2018, acquired during the term of validity of his senior management employment relationship with CaixaBank, is suspended if the CaixaBank General Shareholders' Meeting has not approved the maximum number of CaixaBank shares that can be allocated to Mr. Tomás Muniesa Arantegui before the commencement of the service contract, as established in section 2 of Article 219 of the LSC. This suspension will be maintained until the said maximum number of shares to be allocated to Mr. Muniesa is approved by the CaixaBank General Shareholders' Meeting; once this maximum number of shares has been approved, Mr. Muniesa will fully recover his status as a beneficiary of the LTI under the terms acquired during his senior management employment relationship prior to the service contract. The General Meeting's approval of this Remuneration Policy implies the approval of the maximum number of shares to be allocated to Mr. Tomás Muniesa Arantegui, for purposes of section 2 of Article 219 of the LSC; all the other applicable conditions are as established in the General Shareholders' Meeting resolution of 23 April 2015; once this number of shares has been approved, Mr. Muniesa will fully recover his status as a beneficiary of CaixaBank's Long-term Variable Remuneration Plan for 2015-2018, on the date of commencement of the service contract, under the terms acquired during his senior management employment relationship prior to the commencement of the service contract.

The LTI will allow a certain number of CaixaBank shares to be received when the four years have elapsed, providing certain strategic objectives and the requirements established for the Executive Directors are fulfilled.

The Plan is implemented by granting a determined number of units to each beneficiary, which will be the basis for determining the number of shares to be delivered to each beneficiary, where the case may be, according to their degree of achievement of certain targets.

The number of units is determined on the basis of a reference target amount (€800,000 for Mr. Gonzalo Gortázar Rotaeché and €500,000 for Mr. Tomás Muniesa Arantegui, for the entire duration of the 2015-2018 Plan) and the arithmetic mean price of the closing prices of CaixaBank shares at the trading sessions corresponding to the month of February 2015. This yields a number of 200,905 units for Mr. Gonzalo Gortázar Rotaeché and 125,566 units for Mr. Tomás Muniesa Arantegui.

The final number of shares delivered will be determined by multiplying the number of units granted by the Target Achievement Level coefficient, as defined in the General Meeting's resolution of 23 April 2015.

The estimate of the maximum number of shares to be delivered, as stated in the aforementioned General Meeting resolution and contemplating the Maximum Target Achievement Level, is 261,578 for Mr. Gonzalo Gortázar Rotaeché and 163,486 for Mr. Tomás Muniesa Arantegui, with the possibility of advance delivery stated in the said resolution.

The terms and conditions of the LTI, including its description and purpose, beneficiaries, duration and settlement of the Plan, determination of the number of units for each beneficiary, determination of the number of shares to be delivered on settlement of the Plan, number of shares to be delivered, reference value of the shares, metrics, requirements for obtaining shares, delivery of shares and rules for their availability, cases of advance settlement or amendment of the Plan, reduction and recovery clauses and adaptation to regulatory requirements, are as stated in Agreement 10 of the aforementioned General Shareholders' Meeting of 23 April 2015, implemented in CaixaBank's Annual Directors' Remuneration Report.

f) Long-term savings plan

In 2018, a total defined contribution of €330,000 will be made to cover the contingencies of retirement, death, permanent incapacity and total, absolute or major disability for Mr. Gonzalo Gortázar Rotaeché. In addition to the previously mentioned defined contribution, the policy will also include coverage for death and for permanent total, absolute and major disability equivalent to the amount of two years' fixed remuneration at the time of the contingency. The premium for this coverage for 2018 is estimated at approximately €43,000.

In the case of Mr. Tomás Muniesa Arantegui, a total defined annual contribution of €102,954 will be made to cover the contingencies of retirement, death and total, absolute or major disability¹².

The annual target amounts for the Discretionary Pension Benefit Policies, as established in section IV.7.e), are €49,500 for Mr. Gonzalo Gortázar Rotaeché and €15,443 for Mr. Tomás Muniesa Arantegui¹³.

¹² For the financial year 2018, the figure will be prorated between the commencement of the service contract and 31 December 2018.
