NINE.- Corresponding to Agenda Item 9

Increase of the Company's share capital by a determinable amount in accordance with the terms of the resolution, by issuing new common shares having a par value of one (1) euro each, of the same class and series as those currently outstanding, charged to voluntary reserves, offering the shareholders the possibility of selling the free subscription rights to the Company itself or on the market. Allocation of non-distributable reserve. Granting of powers to the Board of Directors, authorising it to delegate in turn to the Executive Committee, to set the date on which the capital increase will be made, and all other terms of the increase where not provided for by the General Meeting, all in accordance with Article 297.1.a) of the Capital Companies Act. Application for admission to trading of the newly-issued shares on the Barcelona, Bilbao, Madrid and Valencia stock exchanges through the Spanish Stock Exchange Interconnection System (Continuous Market).

1.- Capital increase

It is agreed to make a capital increase for the amount resulting from multiplying (a) the par value of one (1) euro per CaixaBank share by (b) the determinable number of CaixaBank shares resulting from the formula given in point 4 below (the "**New Shares**"), from which the shares corresponding to the free allotment rights acquired by the Company in accordance with point 6 below will be deducted.

The capital increase is made by means of issue and circulation of the New Shares, which will be ordinary shares with a par value of one (1) euro each, of the same class and series as those currently outstanding, represented by account book entries.

The capital increase is entirely charged to reserves as provided for in Article 303.1 of the Capital Companies Act.

The New Shares are issued at par, i.e. at their par value of one (1) euro, without a share premium, and they will be freely allocated to the Company's shareholders.

2.- Allocation of non-distributable reserve

Agreement to make a provision of non-distributable reserve, for an amount of 170,934,220 euros, against freely available reserves, which amounted to 2,560,202,544.91 Euros at 31 December 2015, the totality of the capital increase being made against this provision.

If the amount of the capital increase is greater than the amount of the non-distributable reserve, the part of the increase exceeding the amount of the latter will be made against freely available reserves.

Any surplus in the non-distributable reserve after the capital increase has been made will be considered freely available reserve.

3.- Requirements for implementation of the capital increase

The implementation of the capital increase by the Board of Directors or, by delegation, the Executive Committee, will be subject to the existence of sufficient reserves (in accordance with Article 303.1 of the Capital Companies Act) at the time of the implementation. If the aforementioned reserves are insufficient, the Board of Directors or, by delegation, the Executive Committee, will not implement the increase, submitting the need to revoke this resolution to the General Shareholders' Meeting.

The Board of Directors or, by delegation, the Executive Committee, will determine whether there are sufficient reserves to implement the capital increase, in accordance with Article 303.1 of the Capital Companies Act, on the basis of a balance sheet closed within the six

months prior to adoption of the resolution for its implementation, drawn up by the Board of Directors and verified by the Company's auditor.

The balance sheet referred to in the previous paragraph, which may be part of the Company's interim financial statements, will be made available to the shareholders and informed of at the first Annual General Meeting held after the capital increase, at which the implementation of the capital increase and the terms thereof will also be notified.

4.- New Shares to be issued

The number of New Shares will be as resulting from the following formula, rounded down to the nearest whole number:

$$\text{NAN} = \text{NTAcc} / \text{N}^{\circ} \text{ of Rights}$$

where

NAN = number of New Shares to be issued;

NTAcc = total number of CaixaBank shares outstanding on the date agreed on for implementation of the capital increase by the Board of Directors, or, by delegation, the Executive Committee; and

N^o of rights = the number of free allotment rights required to allocate one New Share, which will be the number obtained by applying the following formula, rounded up to the nearest whole number:

$$\text{N}^{\circ} \text{ of rights} = \text{NTAcc} / \text{Provisional n}^{\circ} \text{ of shares}$$

where

$$\text{Provisional n}^{\circ} \text{ of shares} = \text{amount of the Alternative Option} / \text{Quoted price}$$

For these purposes:

The amount of the Alternative Option is the market value of the capital increase, which shall be established by the Board of Directors or, by delegation, the Executive Committee, in accordance with the number of shares outstanding (i.e. NTAcc) and the 2016 remuneration paid to shareholders up to that moment, and it may not exceed 342,000,000 euros.

The Quoted Price will be the arithmetic mean of the weighted average prices of a Company share on the Spanish stock exchanges on the five trading days prior to the day on which the Board of Directors or, by delegation, the Executive Committee, implements the capital increase, rounded off to the nearest thousandth of an Euro, and in the case of a half a thousandth of an Euro, rounded up to the nearest thousandth.

5.- Free allotment rights

Each Company share outstanding will grant one free allotment right.

The number of free allotment rights required to receive one New Share shall be determined automatically in accordance with the ratio between the number of New Shares and the total number of shares outstanding (NTAcc). Specifically, shareholders will be entitled to receive one New Share for a number of free allotment rights they hold as determined in accordance with point 4 above (N^o of rights).

Holders of bonds or instruments convertible to CaixaBank shares will not be entitled to free allocation rights. However, if this shareholder remuneration formula should give rise to dilution, they will be entitled to modify the ratio of the exchange of the bonds for shares (or the minimum and/or maximum limitations of such ratio, in case it is not fixed), in proportion to the amount of the increase.

If the number of free allotment rights required to allocate one share (Nº of rights) multiplied by the number of New Shares to be issued (NAN) is lower than the total number of shares outstanding (NTAcc), CaixaBank, or one of its group companies, shall waive a number of free allotment rights equal to the difference between the two numbers, for the exclusive purpose of ensuring that the number of New Shares to be issued is a whole number and not a fraction.

The free allotment rights will be assigned to CaixaBank shareholders legitimised as such in the accounting records of Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A.U. (Iberclear) on the date of settlement of the transactions made by 23.59 p.m. on the day of the announcement of the capital increase in the Official Bulletin of the Commercial Register or, if this is not possible, in accordance with the regulations for registration, clearing and settlement of securities that may be applicable at the time, on the date determined by the Board of Directors or, by delegation, the Executive Committee, in accordance with the applicable regulations. During the free allotment right trading period, free allotment rights to subscribe New Shares may be acquired on the market. These rights may be traded on the market during a period to be determined by the Board or, by delegation, the Executive Committee, which shall consist of a minimum of 15 calendar days.

6.- Irrevocable commitment to acquiring free allotment rights

The Company will assume the irrevocable commitment to purchase the free allotment rights received free of charge at the price indicated below (the "**Purchase Commitment**"). The Purchase Commitment will remain in force and may be accepted by the said shareholders during the period, within the rights trading period, to be determined by the Board of Directors or, by delegation, the Executive Committee. For this purpose, it is hereby resolved to authorise the Company to acquire the said free allotment rights (together with the shares corresponding to them), with an upper limit of the total number of rights issued, respecting legal limitations at all times. The "**Purchase Price**" of each free allotment right shall be equal to the amount resulting from the following formula, rounded off to the nearest thousandth of a Euro and, and in the case of a half a thousandth of an Euro, rounded up to the nearest thousandth:

$\text{Purchase Price} = \text{Quoted price} / (\text{nº of rights} + 1)$

The Purchase Price of the free allotment rights to be paid to shareholders may be charged totally or partially to profit and/or to freely available reserves, as determined by the Board of Directors or, by delegation, the Executive Committee, at the time of implementation of the agreed Capital Increase.

7.- Balance for the transaction and reserve to which the capital increase is charged

The balance used as the basis for the transaction is the balance on 31 December 2015, duly audited and approved at this General Shareholders' Meeting.

Additionally, as indicated above, the determination of whether there are sufficient reserves to implement the increase, in accordance with Article 303.1 of the Capital Companies Act, must be made on the basis of a balance sheet closed in the six months prior to the adoption

of the implementation resolution drawn up by the Board of Directors and verified by the Company's auditor.

The totality of the capital increase will be implemented against the non-distributable reserve referred to in point 2 above, or, if such reserve is insufficient, against freely available reserves.

8- Representation of the new shares

The shares issued will be represented by book entries, allocated to Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A.U. (Iberclear) and its subsidiaries.

9.- Rights for the new shares

The new shares will grant their holders the same political and financial rights as the outstanding ordinary CaixaBank shares as from the date on which the capital increase is declared as subscribed and paid out.

10.- Deposited shares

On completion of the trading period for the free allotment rights, any New Shares that have not been allocated for reasons beyond CaixaBank's control will remain in deposit and will be available to any persons providing proof of their legitimate ownership of the corresponding free allotment rights. When three years have elapsed from the date of completion of the free allotment right trading period, any shares still unallocated may be sold, pursuant to Article 117 of the Capital Companies Act, at the interested parties' own account and risk. The cash proceeds from the aforementioned sale shall be deposited at the Bank of Spain or the Spanish General Savings Deposit and may be consulted by the interested parties.

11.- Official application for admission to trading

It is agreed to apply for admission to trading of the New Shares on the Barcelona, Bilbao, Madrid and Valencia stock exchanges, via the Continuous Market, expressly noting the fact that CaixaBank is subject to all existing regulations and any that may be passed with regard to the Stock Exchange and, particularly, to contracting, lock-up and exclusion from official trading.

It is expressly noted that if a subsequent application should be made for the exclusion from trading of CaixaBank shares, this shall be adopted in accordance with the same formal procedures applicable and, in such cases, shall guarantee the interests of any shareholders opposing the exclusion resolution or not voting in favour of it, in compliance with the Capital Companies Act and related provisions, all in accordance with the Securities Market Law and its implementing provisions at each time.

12.- Implementation of the capital increase

Within a period of one year from the date of this agreement, the Board of Directors or, by delegation, the Executive Committee, may agree to implement the capital increase and establish the conditions for the same with regard to any aspects not contemplated in this agreement, providing that the requirements set forth in point 3 above are complied with. Notwithstanding the foregoing, if the Board of Directors does not deem the implementation of the capital increase appropriate, it may submit the possibility of revoking this resolution to the General Meeting.

After completion of the free allotment right trading period:

- (a) The New Shares will be allocated to investors who, according to registers held by Iberclear or its subsidiaries, are holders of free allotment rights in the proportion resulting from section 5 above.
- (b) The Board of Directors or, by delegation, the Executive Committee, will declare the free allotment right trading period closed and shall proceed to formalise the application of the reserves in the accounts for the amount of the capital increase, the capital increase being paid out on this application.

Similarly, after the end of the free allotment right trading period, the Board of Directors or, by delegation, the Executive Committee, will adopt the relevant resolutions to amend the Company By-laws in order to reflect the new amount of capital resulting from the increase and the application for admission to trading of the new shares on the Stock Exchanges.

13.- Delegation of powers

It is agreed to grant the Board of Directors the power to establish the terms of the capital increase with regard to all aspects not provided for in this resolution, in accordance with Article 297.1.a) of the current Capital Companies Act, with express powers to delegate in turn to the Executive Committee. In particular, and for illustrative purposes only, the Board of Directors is granted the following powers, also being expressly empowered to delegate them in turn to the Executive Committee:

The securities that may be issued under this authorisation may include the possibility of being additionally or alternatively redeemable for outstanding Company shares or be paid by differences, on decision by CaixaBank. For purposes of clarification, it is noted that the issuance of fixed income securities that are exclusively redeemable (i.e. that are not additionally or alternatively convertible to newly-issued Company shares) for existing shares in the Company or other entities, whether or not CaixaBank has a holding in such entities, or solely payable by differences, are not subject to this delegation and shall be governed by the regulations in force and Articles 14 and 15 of the Company By-laws in accordance with the proposal for their drafting in point 7.1 of the agenda, after being approved and having obtained the corresponding authorisation for amendment of the By-laws or, prior to being approved and obtaining this authorisation, under the terms of the delegation agreement approved by the General Shareholders' Meeting of 25 April 2013, in accordance with item 9 of the agenda, by virtue of the previous legal and statutory system.

For purposes of calculating this limit, in the case of the warrants it will take into account the sum of the premiums and the strike price of the warrants for each issue approved by virtue of this delegation.

3. Issues made by virtue of this delegation may be for Spanish or foreign investors of all kinds.
4. By virtue of the powers granted herein, and by way of example but without limitation, the Board of Directors shall be responsible for determining the following for each issue: its amount, always within the overall quantitative limit established, its place of issue (in

Spain or in another country) and its currency, together with its equivalent in Euros in the case of foreign currencies; the designation or type (bonds or securities, preferred stock, warrants or any other type permitted by Law) including subordinated bonds, as established in the European Parliament and Council Regulation EU 575/2013 of 26 June 2013 on prudential requirements for credit institutions and investment firms, where the case may be; the date(s) of issue; whether the securities are mandatorily or voluntarily convertible and/or redeemable, also in the case of contingencies, and, if they are voluntarily convertible and/or redeemable, on option by the holder of the securities or the issuer; the payment by means of physical delivery of the shares or, as the case may be, by differences and the possibility of being totally or partially exchangeable by existing shares of the Company or other companies, whether the Company holds a participating interest or not, or conferring the right to purchase such shares; the number of securities and their par value, which in the case of convertible and/or redeemable securities must not be lower than the par value of the shares; in the case of warrants and analogous securities, the issue price and/or premium, the strike price – which may be fixed or variable – and the procedure, deadline and all other conditions applicable to exercising the subscription right for the underlying shares or, where the case may be, exclusion from the said right; the type and conditions of the remuneration; whether it is redeemable or not and, where the case may be, the deadlines and cases for redemption (total or partial), whether it is perpetual or fixed-term and, in the latter case, the date(s) of maturity; the guarantees, type of reimbursement, premiums and lots; the form of representation, by means of securities or book-entries; anti-dilution clauses; the pre-emptive right, where the case may be, and the subscription system; the range of the securities and any subordination clauses; the legislation applicable to the issue, whether it is Spanish or foreign; requesting, where the case may be, the admission (and, as the case may be, the exclusion) to trading on official or unofficial secondary markets, organised or not, Spanish or foreign, of the securities issued with the requirements made by the applicable legislation in each particular case; and, in general, any other condition for the issue and creating the body and the form of representation of the security holders and, where applicable, designating the Loss Adjuster and approving the basic rules governing the legal relationship between the Company and the Syndicate of Holders of the securities issued, if necessary or if the constitution of such a Syndicate is agreed to.

The delegation also includes granting the Board of Directors the power to decide the terms of redemption of the securities issued by virtue of this authorisation, and it may use the means of redemption established in Article 430 of the Capital Companies Act or any other applicable legislation, to the extent applicable. The Board of Directors is also granted the power to modify the terms for redemption of the securities issued and their respective time periods and, where the case may be, the rates of interest earned by those included in each of the issuances made by virtue of this authorisation, when it deems this appropriate, subject to obtaining the relevant authorisations, where applicable, and the approval of the General Meetings of the corresponding trade unions or representative bodies of the holders of the securities, where the case may be.

5. For purposes of determining the bases and types of conversion and/or redemption, it is hereby agreed to establish the following criteria:

- 5.1 Bonds and securities

- i. The securities issued by virtue of this agreement shall be convertible to new Company shares, with the possibility of their being additionally or

alternatively redeemable for outstanding Company shares or payable by differences, in accordance with either a fixed (determined or determinable) or variable conversion and/or redemption ratio (which may include upper and lower limits on the price of the conversion and/or redemption), the Board of Directors being empowered to determine whether they are convertible and/or redeemable or payable by differences, where the case may be, and whether they are necessarily or voluntarily convertible and/or redeemable, including in the case of contingencies, and in the case of their being voluntarily convertible and/or redeemable, on option by their holder or the issuer, in accordance with the frequency and deadline established in the issue agreement, which may not be any later than fifty (50) years from the date of issue. The aforementioned deadline shall not apply to perpetual securities.

- ii. If the issuance is convertible and redeemable, the Board of Directors may also establish that the issuer reserves the right to choose between the conversion to new shares or redemption for outstanding Company shares at any time, specifying the nature of the shares to be delivered on making the conversion or redemption, and it may also choose to deliver a combination of newly-issued shares and already existing Company shares, or even pay out the difference in cash.
- iii. In the case of a fixed conversion and/or redemption, for purposes of the conversion and/or redemption, where the case may be, the securities are to be priced at their par value and the shares at the fixed exchange rate determined in the Board of Directors' resolution in which this delegation is used, or at the exchange rate determinable on the date(s) close to the date of issue, indicated in the actual Board of Directors' resolution, and in accordance with the Stock Exchange value of the Company shares on the date(s) or during the period(s) taken as a reference point in the same resolution, with or without a discount or premium, the Board of Directors being empowered to determine the criteria for conversion and/or redemption it deems appropriate.
- iv. It may also be agreed to issue the additionally or alternatively redeemable convertible fixed income securities or payable by differences, where the case may be, with a variable conversion and/or redemption ratio. In this case, the price of the shares for purposes of the conversion and/or redemption will be as determined by the Board of Directors and may include a premium or, where the case may be, a discount with regard to the price per share resulting from the criteria established. The premium or discount may be different for each date that is taken as reference for the conversion and/or redemption of each issue (or, where the case may be, each tranche of an issue). Additionally, a minimum and/or maximum reference price may be established for the shares for purposes of their conversion and/or redemption, under the terms deemed appropriate by the Board of Directors.
- v. On making the conversion and/or the redemption, where the case may be, if any share fractions are to be delivered to the holder of the securities they will be rounded down by default to the next whole number. The Board will be responsible for deciding whether each holder should be paid the resulting difference in cash, where the case may be.

- vi. For purposes of the security/share conversion ratio, under no circumstances may the value of the share be below its par value. Also, in accordance with Article 415.2 of the Capital Companies Act, securities may not be converted into shares if the par value of the latter is lower than that of the former.

On approving an issue of securities by virtue of the authorisation contained in this agreement, the Board of Directors shall also issue an administrators' report developing and specifying the bases and types of conversion, or redemption where the case may be, specifically applicable to the aforementioned issue, on the basis of the criteria described above. This report will be accompanied by the corresponding report issued by an auditor different from the Company's accounts auditor, appointed by the Commercial Registry, referred to in Article 414 of the Capital Companies Act.

- 5.2 Warrants and other analogous securities that may directly or indirectly grant the right to subscription or acquisition of Company shares.

In case of issuances of warrants and other analogous securities that may directly or indirectly grant the right to subscription or acquisition of Company shares and that, if applicable, may be additionally or alternatively exchangeable by existing Company shares or shares in other companies or payable by differences, which will similarly be subject, if applicable, to the stipulations made in the Capital Companies Act for convertible securities, for purposes of determining the bases and types for exercising the same, the Board of Directors is granted the powers to determine, under the broadest terms, the applicable criteria for exercising the rights of subscription or acquisition of Company shares deriving from the securities of this type issued by virtue of the delegation granted herein, the criteria established in section 5.1 above being applied with regard to such issues, with the necessary adaptations to make them compatible with the legal and financial system for this type of securities.

- 6. As far as the conversion and/or redemption for shares of any securities issued by virtue of this delegation is possible, their holders shall own all the rights conferred to them by the applicable legislation.
- 7. This delegation to the Board of Directors also includes the following powers, by way of example but without limitation:
 - i. The power for the Board of Directors, by virtue of Articles 308, 417 and 511 of the Capital Companies Act, to totally or partially exclude the shareholders' pre-emptive right, when this is required for securing financial resources on the national or international markets and it is intended to be made using bookbuilding techniques or when the Company's interests justify it in any other way. In any case, if the Board decides to remove the shareholders' pre-emptive right with regard to any specific issuance it decides to make by virtue of this authorisation, on approval of the issuance and in accordance with the applicable legislation it will issue a report detailing the specific reasons of company interest justifying this measure, which will be covered by the correlative report drawn up by the independent expert different from the Company's auditor and appointed by the Commercial registry, under the terms set forth in Articles 417.2 and 511.3 of the Capital Companies Act. These reports will be sent to the shareholders and informed of at the first General Meeting held after the issue is agreed on.

- ii. The power to increase the capital by the amount necessary to cater to the requests for conversion and/or exercise of the share subscription right. This power may only be exercised if the Board does not exceed the limit authorised by the General Meeting by virtue of Article 297.1.b) of the Capital Companies Act, combining the capital increase made to cater for the issue of convertible bonds, warrants and other similar securities and any other capital increases that may have been agreed on by virtue of authorisations granted by the General Meeting. The share capital increases that the Board of Directors may approve under this authorisation to cater to the requests of conversion of securities that may have been issued excluding pre-emption subscription rights, shall not be subject to the maximum limitation of 20% of the share capital approved by the General Meeting held on April 23, 2015 under item 14 of the agenda. This capital increase authorisation includes the authorisation to issue and put into circulation, on one or more occasions, the shares representing it that are required for the conversion and/or exercise of the share subscription right, and the authorisation to redraft the articles of the Company By-laws concerning the amount of capital and shares and, where the case may be, to cancel the part of the said capital increase that is not necessary for the conversion and/or exercise of the share subscription right.
- iii. The power to develop and specify the bases and types of conversion and, where the case may be, redemption and/or exercise of the rights of subscription and/or acquisition of shares, deriving from the securities to be issued, taking into account the criteria established in point 5 above, and, in general and in the broadest terms, determining the aspects and conditions that are necessary or appropriate for the issuance.
- iv. Apply for, when deemed advisable, the admission (or, as the case may be, the exclusion) to trading on official or unofficial secondary markets, organised or not, Spanish or foreign, of the securities issued under this authorisation, expressly granting the Board of Directors the power to perform all actions that may be necessary or advisable for the admission to trading of the issued securities before the corresponding organisms of the national or foreign stock exchange markets, subject to the existing and future regulations on Stock Exchanges and, specifically, on contracting, permanence and exclusion to official trading.

The delegation to the Board of Directors, with express powers of delegation to the Executive Committee of the Board of Directors or one or more Directors of the Company, includes the broadest powers required by Law for the interpretation, application, implementation and development of the resolutions to issue securities, and it is also granted the powers to rectify and complement such resolutions as necessary and to comply with all legal requirements for the successful outcome of the same, and it may rectify any omissions or shortcomings in the said agreements that are indicated by any Spanish or foreign authorities, civil servants or bodies, also being empowered to adopt any agreements or issue any public or private documents it deems necessary or appropriate for adaptation of the aforementioned resolutions for issue of securities and the corresponding capital increase to the verbal or written classification of the Companies Registrar or, in general, any other competent Spanish or foreign authorities, civil servants or institutions.
