Executive Summary

Eligible Social Portfolio and Main Impact Indicators

CaixaBank's Social Portfolio totals **€6.3 Bn** as of March 31st, 2022 and includes **307,808 loans** and **275,396 borrowers** meeting eligibility criteria. Proceeds are targeted to bring about positive impact in SDG 1, SDG 3, SDG 4 and SDG 8.

Qualifying Social Portfolio and Impact Assessment
SDG 1, SDG 3, SDG 4 and SDG 8.

The Social Portfolio Report has been calculated in collaboration with an external, independent consultant (ECODES)

The Social Portfolio Report has been verified by an independent external party, providing limited assurance (PwC).

No Poverty - Impact Metrics (Families / Households)

ACHIEVEMENT OF OBJECTIVES

97% of loan beneficiaries claim that the funding has helped them achieve their goals

PERCEPTION OF POSITIVE IMPACT

82% of loan beneficiaries state that the funding has had a positive impact on their lives

RURAL AND LOW-DENSITY AREAS

€117M targeted to families living in rural and low-density areas

Good Health and Well-being – Impact Metrics

NUMBER OF BEDS

2,609 beds in hospitals and healthcare centers financed

NUMBER OF BENEFICIARIES

1.2 M residents living in catchment area of funded hospitals and healthcare centers⁽³⁾

Quality Education- Impact Metrics

STUDENT BENEFICIARIES

15,455 students enrolled in educational centers receiving loan financing

EDUCATIONAL CENTERS

3 subsidized educational centers and **1** educational foundation that operates **8** schools beneficiaries of financing

Decent work and Economic Growth - Impact Metrics (Self-employed workers, micro, small and medium-sized businesses)

AREAS WITH HIGH POTENTIAL FOR GENERATING SOCIAL IMPACT

€4.4 Bn total loans in areas with high and moderate-high levels scores on the Territorial Potential Social Impact Index⁽²⁾, representing **88%** of the total amount granted to micro businesses and SMEs

RURAL AND LOW-DENSITY AREAS

€302 M granted to businesses in rural and low-density areas, accounting for **7,011** borrowers and **8,838** loans

IMPACT ON BUSINESS STRENGTH AND GROWTH

50% of micro, small and medium sized businesses report increased business strength since receiving the loan while **90%** report business stability or growth

IMPACT ON PERSONAL WELL-BEING

89% of self-employed loan beneficiaries have improved or maintained their quality of life since receiving the loan.

EARLY STAGE BUSINESSES

13% of companies were beneficiaries of loans within the first two years of their launching, improving their chances to survive and grow

ECONOMIC IMPACT on GDP⁽⁴⁾

€9,355 M contributed to Spanish GDP (each €1M of loan funding contributed **€1.86M** in direct and indirect impacts to Spain's economy)

EMPLOYMENT IMPACT AN ESTIMATED⁽⁴⁾

82,147 jobs were created or retained due to the loan financing included in the Social Portfolio (for every €1M of loan proceeds, 16 jobs were created or maintained)

(1) Financing: all assets originated in 2021 and 1Q 2022, 6% assets originated in 2022, as of 31st 2022. Refinancing: assets originated in years prior to 2021

(2) See Appendix 1: Methodology (p. 44) for a detailed description the Territorial Potential Social Impact Index and its method of calculation.

(3) This figure represents an estimate of the number of potential beneficiaries that reside in the catchment areas of the funded hospitals and healthcare centres.

(4) Estimates based on total economic and employment impacts (direct and indirect) Refer to Appendix 1: Methodology (P. 42-43) for a description of the methodology used to calculate the economic and employment impacts.

ICMA reporting tables

Eligible Social Portfolio as of March 31st, 2022, broken down by SDGs 1, 3, 4, and 8 based on targets indicated in the CaixaBank's SDG Bond Framework. CaixaBank's SDGs Bond Framework is aligned with the Framework for Impact Reporting for Social Bonds as published by ICMA in 2019 ⁽¹⁾.

Allocation Report

Social Portfolio - Use of proceeds

A total of €6.3 Bn⁽¹⁾ has been distributed in loans that contribute to SDG 1, SDG 3, SDG 4 and SDG 8 in accordance with CaixaBank Sustainable Development Goals (SDGs) Framework ⁽²⁾

ICMA SBP category: Access to essential services

17.3%

> Eligibility criteria

- Activities that increase access to financial services for underserved populations.
- Including: MicroBank's Family Microcredit which targets families with limited incomes, with the income limit updated annually based on the most representative indicator given the economic context. This limit established at 3 times the Public Indicator of Multiple Effects Income (IPREM).⁽³⁾

> SDG Target 1.4

- By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources appropriate new technology and financial services, including microfinance.

80.1%

> Eligibility criteria

- Bank financing that promotes growth of micro, small and medium sized businesses in the most economically disadvantaged regions of Spain (either ranking in the bottom 30th percentile in or in the top 30th in unemployment rate).
- Including: Personal loans without any collateral or guarantee for self-employed workers; microenterprises and SMEs as per the European Commission definition.⁽⁴⁾

> SDG Target 8.10

- Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all.

ICMA SBP category: Employment generation including through the potential effect of SME financing and microfinance

ICMA SBP category: Affordable basic infrastructure and Access to essential services

> Eligibility criteria

- Activities that improve the provision of free or subsidised healthcare, and early warning, risk reduction and management of health crises.
- Healthcare facilities for the provision of public and/or subsidised healthcare services. Public infrastructure and equipment for the provision of emergency medical care and of disease control services. Public educational and vocational training centres for professionals in the public healthcare provision and emergency response.

> SDG Target 3.8

- Achieve universal health coverage, access to quality essential healthcare services and access to safe, effective, quality and affordable essential medicines and vaccines for all.

2.1%

> Eligibility criteria

- Activities that expand access to publicly funded primary, secondary, adult and vocational education, including for vulnerable population groups and those at risk of poverty. This also includes the financing or refinancing of activities that improve publicly funded educational infrastructure.

> SDG Targets 4.1 and 4.3

- SDG 4.1: Ensure that all girls and boys complete free, equitable and quality primary and secondary educations.
- SDG 4.3: Ensure equal access for all women and men to affordable and quality technical, vocational and tertiary education, including university.

0.5%

ICMA SBP category: Access to essential services

(1) Refer to Appendix I: Methodology for a detailed description of the method used for calculating referenced indicators (p:36-37).

Social Portfolio Impact - SDG 1

Over eight in ten loan recipients have seen their income levels maintained or increased as a result of the loan.

Impact on Income ⁽²⁾

"83 % CLAIM THAT THEY HAVE BEEN ABLE TO **INCREASE OR MAINTAIN THEIR INCOME** THANKS TO THE LOAN"

(1) Refer to Appendix I: Methodology for a detailed description of the method used for calculating referenced indicators (p: 37)

Social Portfolio Impact - SDG 1

More than 80% of borrowers claim that the loan has generated a positive impact on their lives, helping them to achieve their objectives, improve their personal wellbeing and life satisfaction and enhance their material well-being.

Perception of positive impact generated by the loans⁽¹⁾

After the loan was granted, would you say that your quality of life has improved?"

"82 % CLAIM TO HAVE EXPERIENCED A POSITIVE IMPACT ON THEIR PERSONAL/FAMILY WELL-BEING"

Intensity score⁽²⁾ | out of 10

Intensity score = weighted average of replies using the following scale

- Strongly agree = 10
- Agree = 7.5
- Neither agree nor disagree = 5
- Disagree = 2.5
- Strongly disagree = 0
- NR/DK = 0

Areas of impact attributable to the loans⁽¹⁾⁽²⁾

(based on a scale of 0 to 10)

Dimensions of wellbeing impacted by the loan

(1) Refer to Appendix 1: Methodology (p: 38) for a detailed description of the indicators included in the Impact analysis
(2) Refer to Appendix 1: Methodology (p: 41) for a detailed description of the method of calculation of the intensity index for selected indicators.

Social Portfolio Impact - SDG 1

97% of borrowers claim that the loan has helped them to achieve their goals, largely resulting in a positive impact on their financial situation.

Positive impact of funding received ⁽¹⁾

Positive impact generated by funding on the recipients financial situation

"75 % CLAIM TO HAVE EXPERIENCED A POSITIVE IMPACT ON THEIR FINANCIAL SITUATION"

Intensity score ⁽²⁾ | out of 10

Intensity score = weighted average of replies using the following scale

- Strongly agree = 10
- Agree = 7.5
- Neither agree nor disagree = 5
- Disagree = 2.5
- Strongly disagree = 0
- NR/DK = 0

Impact of funding on the achievement of objectives ⁽¹⁾

Would you say you have met the need / needs for which you applied for the loan?

"97% CLAIM TO HAVE ACHIEVED THEIR GOALS"

Intensity score ⁽²⁾ | out of 10

Intensity score = weighted average of replies using the following scale

- Yes, totally = 10
- No = 0
- Yes, partially = 5
- NR/DK = 0

(1) Refer to Appendix 1: Methodology (P. 38) for a detailed description of the indicator and the method for its calculation.

(2) Refer to Appendix 1: Methodology (p. 41) for a detailed description of the method of calculation of the intensity index for selected indicators.

Social Portfolio Impact - SDGs 3 and 4

The loans granted generate a strong impact while contributing to SDGs 3 and 4.

Number of hospitals/health centers ⁽¹⁾

Caixabank has granted loans to **Hospitals and HealthCare Centers** which provide **public HealthCare**

Total number of beds

2,609

total beds of the **hospitals and healthcare centers** financed

Total number of residents benefited

€1,2M

potential number of people benefiting (people served) from the financing granted to **hospitals and healthcare centers**

Number of educational centers ⁽¹⁾

Caixabank has granted loans to **subsidized educational centers** which provide **primary and secondary education**

Students benefited ⁽²⁾

15,445

students enrolled in the educational centers

(1) Social Portfolio loans were granted to 3 educational centers and 1 educational foundation that operates 8 educational centers.

(2) Refer to Appendix 1: Methodology (p: 38-39) for a detailed description of the selected impact indicators.

Social Portfolio Impact - SDG 8

Self-employed

Caixabank's social portfolio is exclusively targeted to areas with higher levels of unemployment and lower levels of economic activity per capita.⁽¹⁾ Moreover, loans are predominantly targeted to areas with high levels of social needs, featuring multiple and interrelated social, economic and demographic challenges, but with a degree of economic resilience which favors the creation of positive social impact as a result of the funding received.

Based on an analysis using the Territorial Potential Social Impact Index ⁽²⁾, **76%** of the **loans to the self-employed** are targeted in these areas conducive to the generation of significant social impact.

Total amount granted in areas scoring high and moderate-high on the Territorial Potential Social Impact Index

Total amount lent to newly formed companies

(1) Refer to Appendix 1: Methodology (p:36-37) for a detailed description of the selected impact indicators.

(2) Refer to Appendix 1: Methodology for detailed definition and explanation of the calculation (p: 39).

Social Portfolio Impact - SDG 8

Self-employed

A significant portion of borrowers claim that the loans granted had made their business stronger and even grow.

Impact on Business Strength ⁽¹⁾

How did the loan impact the business in the 12 months after it was granted?

"43 % CLAIM TO HAVE EXPERIENCED A POSITIVE IMPACT ON THE STRENGTH OF THEIR BUSINESS"

Intensity score ⁽²⁾ | out of 10

Intensity score = weighted average of replies using the following scale

- Business has weakened = 0
- Business has remained the same = 5
- Business has become stronger = 10
- NR/DK = 5

Impact on business growth after receiving the loan ⁽¹⁾

How did the loan affect the growth of your business 12 months after it was granted?

"36 % CLAIM TO HAVE EXPERIENCED A POSITIVE IMPACT ON THE GROWTH OF THEIR BUSINESS"

Intensity score ⁽²⁾ | out of 10

Intensity score = weighted average of replies using the following scale

- It grew a lot = 10
- It grew moderately = 7.5
- It remained stable = 5
- Other = 5
- NR/DK = 5
- Sales fell quite a bit = 3.3
- Sales fell moderately = 1.6
- I had to close = 0

(1) Refer to Appendix 1: Methodology (p: 39-40) for a detailed description of the indicators included in the Impact analysis

(2) Refer to Appendix 1: Methodology (p: 41) for a detailed description of the method of calculation of the intensity index for selected indicators.

Social Portfolio Impact - SDG 8

Self-employed

Approximately 30% of self-employed borrowers reported improvements in their quality of life while ample majorities of the borrowers report enhancements in several dimensions of their wellbeing as a result of the funding received.

Impact of the loans on recipients' quality of life ⁽¹⁾

Specific areas of wellbeing improvements due to loans ⁽¹⁾

After receiving the loan, would you say that your quality of life has improved?

Intensity score ⁽²⁾ | out of 10

Intensity score = weighted average of replies using the following scale

- Has improved a lot = 10
- Has improved a bit = 7.5
- Has remained the same = 5
- Has gotten a little worse = 2.5
- Has gotten much worse = 0

84%

feel more secure and in control of the financial situation of their business

79%

feel that they can more fully achieve their professional and personal goals, due to their current financial situation

78%

feel more optimistic about the future of their business and family

78%

feel more relieved of financial concerns leading to an improved atmosphere in their homes including relationship dynamics and their family environment

(1) Refer to Appendix 1: Methodology (p:40) for a detailed description of the indicators included in the Impact analysis

(2) Refer to Appendix 1: Methodology (p:41) for a detailed description of the method of calculation of the intensity index for selected indicators.

Social Portfolio Impact - SDG 8

Micro, small and medium sized companies

Caixabank's social portfolio is exclusively targeted to areas with higher levels of unemployment and lower levels of economic activity per capita.⁽¹⁾ Loans are also predominantly targeted to areas with high levels of social needs, featuring multiple and interrelated social, economic and demographic challenges, but with a degree of economic resilience which favors the creation of positive social impact as a result of the funding received. Based on an analysis using the Territorial Potential Social Impact Index ⁽²⁾,

Nearly 90% of social portfolio loans to micro and SMEs are targeted in these areas with favorable conditions for the generation of significant positive social impact.

Total amount granted in areas scoring high and moderate-high on the Territorial Potential Social Impact Index

€4,122M

88 %

Of loans granted in areas that face high levels of social and demographic challenges

Scoring levels according to the Territorial Potential Social Impact Index

Territorial Potential Social Impact Index Scores (scores range from 0 to 1— higher scores suggest higher levels of social needs but with a level of economic resilience that allows for positive social impact generation as a result of the funding)

High (>0.75 score on the Territorial Potential Social Impact Index)	Moderate High (0.51 a 0.75 score on the Territorial Potential Social Impact Index)	Moderate Low (score of 0.26 to 0.50 in the Territorial Potential Social Impact Index)
Granada Jaen Córdoba Almería Las Palmas Alicante Huelva Santa Cruz de Tenerife Ceuta	Sevilla Cádiz Málaga Toledo Melilla	Ciudad Real Badajoz Ávila Cáceres Guadalajara Zamora

(1) Funding is targeted provinces in Spain in the top30th percentile in terms of unemployment and the bottom 30th percentile in terms of GDP per capita
(2) Refer to Appendix I: Methodology (p: 44) for a detailed description of the Territorial Potential Social Impact Index and the method used for its calculation.

Social Portfolio Impact - SDG 8

Micro, small and medium sized companies

The loans help to address many of the main societal challenges including poverty, depopulation in rural areas, youth unemployment and the aging of the population.

 Loans granted in areas with high levels of the population at risk of poverty ⁽¹⁾

€4,640M

 48,166
Number of loans

 36,060

(1) Refer to Appendix 1: Methodology (p: 36-37) for a detailed description of the selected impact indicators.

Social Portfolio Impact - SDG 8

Micro, small and medium sized companies

50% of micro, small and medium-sized enterprises claim that the loan allowed them to strengthen their existing business.

Impact on Business Strength ⁽¹⁾

How did the loan impact the business in the 12 months after it was granted?

(1) Refer to Appendix 1: Methodology (p: 39-40) for a detailed description of the selected impact indicators.
(2) Refer to Appendix 1: Methodology (p: 41) for a detailed description of the method of calculation of the intensity index for selected indicators.

Social Portfolio Impact - SDG 8

Micro, small and medium sized companies

More than 90% of the companies claim they have been able to maintain, and in some cases grow their businesses thanks to the loan.

Impact on Business Growth ⁽¹⁾

How did the loan affect the growth of your business 12 months after it was granted?

Impact | out of 10

(1) Refer to Appendix 1: Methodology (p: 40) for a detailed description of the selected impact indicators.
(2) Refer to Appendix 1: Methodology (p: 41) for a detailed description of the method of calculation of the intensity index for selected indicators.

Social Portfolio Impact - SDG 8

Total SDG 8 contributed 9,355 M to Spanish GDP, meaning that every 1M invested in Caixabanks social bonds contributes 1.86 M to GDP.

Direct Impact⁽¹⁾

> Value added created directly by the loans within the borrowers' industries

Indirect Impact⁽¹⁾

> Value added generated by other parties in the supply chain

(1) Refer to Appendix 1: Methodology (p. 42-43) for a detailed description of the methodology used to calculate the direct and indirect economic impacts based on an analysis of the national input-output tables..

Social Portfolio Impact - SDG 8

82,147 jobs created/retained, of which 47,770 are direct and 34,377 are indirect, meaning that for every 1M invested in CaixaBank's social bonds approximately 16 jobs are created/retained.

Direct Impact ⁽¹⁾

> Value added created directly by the loans within the borrowers' industries

Indirect Impact ⁽¹⁾

> Value added generated by other parties in the supply chain

(1) Refer to Appendix 1: Methodology (P. 42-43) for a detailed description of the methodology used to calculate the direct and indirect economic impacts based on an analysis of the national input-output tables..

Appendix I: Methodology

Allocation Indicators

Indicator	Definition	Data source	SDG	Page in the Report
Total eligible amount loaned to promote achievement of Sustainable Development Goals	Amount, in €, of Social Portfolio funds meeting eligibility criteria that contribute to the achievement of the Sustainable Development Goals (SDG 1, SDG 3, SDG4; SDG 8).		SDG 1 SDG 3 SDG 4 SDG 8	Page 9
Number of loans	Number of eligible loans included in the Social Portfolio broken down by SDG (SDG 1, SDG 3, SDG4; SDG 8).		SDG 1 SDG 3 SDG 4 SDG 8	Pages 10, 11, 12, 13 and 14
Loans: by type of borrower	Total amount of eligible loans, in millions of € and in %, included in the Social Portfolio broken down by type of borrower (educational centers, hospitals and health foundations, families / individuals, self-employed workers, micro-enterprises, small enterprises, medium-sized enterprises).		SDG 1 SDG 3 SDG 4 SDG 8	Pages 10, 12, 13, and 14
Loans: by vintage	Total amount of eligible loans, in millions of € and in % , included in the Social Portfolio broken down by the year of its origination.		SDG 3 SDG 4	Pages 10 and 12
Number of borrowers	Number of recipients of eligible loans included in the Social Portfolio. For loans categorized as contributing to SDG 1 the indicator refers to the number of families and individuals. For loans categorized as contributing to SDG 8 the indicator refers to the number of self-employed workers, micro-enterprises, small enterprises, medium-sized enterprises)		SDG 1 SDG 8	Pages 10, 11, 13, and 14
Average loan amount	Average amount, in €, of loans granted meeting eligibility criteria and included in the Social Portfolio broken down by type of borrower.		SDG 1 SDG 3 SDG 4 SDG 8	Pages 10, 11, 12, 13, and 14
Average weighted loan maturity period	<p>Average weighted maturity period, calculated in years, of the eligible loans included in the Social Portfolio, calculated as follows:</p> <p>Average weighted maturity period = (maturity date - date of calculation of the outstanding social portfolio) * volume of financing</p> <p>The calculation date of the pending social portfolio is 03/31/2022.</p> <p>Once the maturity period of each loan has been calculated, the sum of this calculation is weighted by the total amount of the outstanding Social Portfolio.</p>	 	SDG 1 SDG 3 SDG 4 SDG 8 CaixaBank's databases	Pages 11, 12, 13, and 14

Allocation Indicators

Indicator	Definition	Data source	SDG	Page in the Report
Loans by social category	Number of eligible loans included in the Social Portfolio broken down by social category. These include decent and accessible housing, meeting basic family needs, acquisition of a means of transport as a method of social integration, and access to education and culture.		SDG 1	Page 11
Breakdown of loans by social category	<p>Total amount of eligible loans granted, in millions of € and %, included in the Social Portfolio broken down by social category. These include decent and accessible housing, meeting basic family needs, acquisition of a means of transport as a method of social integration, and access to education and culture.</p> <p>Detailed breakdown, in %, by subcategories of "decent and accessible housing" and "meeting basic family needs".</p>		SDG 1	Page 11
Average age of borrowers	Average age, in years, of the borrowers of eligible loans included in the Social Portfolio.		SDG 1 SDG 8	Page 11 and 13
Women beneficiaries	Women, expressed as a % (for individuals) and as a number (for self-employed), granted an eligible loan included in the Social Portfolio.		SDG 1 SDG 8	Page 11 and 13
Educational attainment of borrowers	Loan beneficiaries, expressed as a % that have a maximum educational attainment of completion of obligatory secondary education.		SDG 1	Page 11
Loans by type of borrower	Eligible loans, in millions of € and in %, included in the Social Portfolio broken down by type of borrower (self-employed worker, micro-enterprises, small enterprises, medium-sized enterprises).		SDG 8	Page 13 and 14
Breakdown of loans by economic activity of borrower	Eligible loans, in millions of €, included in the Social Portfolio broken down by sector of economic activity of the loan recipient		SDG 8	Page 13 and 15

Impact Indicators

>> Surveys information:

- > SDG 1: 600 surveys conducted among individuals and families by MicroBank in 2022.
- > SDG 8: 1,061 surveys conducted in 2022, of which 365 are self-employed workers and 696 micro-enterprises, small-sized companies and medium-sized companies.

Margin of error for the total sample: **5%**
Confidence level (both SDG 1 and SDG 8 surveys): **95%**
Method: **telephone surveys**.

Indicator	Definition	Data source	SDG	Page in the Report
Loans granted in areas with high levels of the population at risk of poverty	<ol style="list-style-type: none"> 1) Loans, expressed in number and as a percentage, meeting eligibility criteria and included in the Social Portfolio granted in areas with population at risk of poverty, defined as "areas with the percentage of the population living in households whose total equivalent annual income is below the poverty line that is higher than the national average". Data obtained through the INE (National Institute of Statistics) for the year 2020. https://www.ine.es/jaxiT3/Tabla.htm?t=29282 2) Total number of borrowers who were granted a loan included in the Social Portfolio in areas with a population at risk of poverty that is above the national average. 3) Total amount of loans, in millions of €, included in the Social Portfolio granted in areas with population at risk of poverty that is above the national average. Impact Indicators

Indicator	Definition	Data source	SDG	Page in the Report
Number of residents benefited	Potential number of beneficiaries of the hospitals and healthcare centers financed by the loans included in the Social Portfolio, calculated based on the number of residents in that defined catchment area of the funded institutions that can potentially access and benefit from the healthcare services offered at the funded hospitals and healthcare centers).		SDG 3	Page 21
Number of hospitals and/or health centers receiving funding	Total number of hospitals and health centers receiving loan financing meeting eligibility criteria and included in the Social Portfolio.		SDG 3	Page 21
Number of educational centers receiving funding	Total number of educational centers receiving loan financing meeting eligibility criteria and included in the Social Portfolio.		SDG 4	Page 21
Number of students benefited	Number of students enrolled in educational centers receiving loans meeting eligibility criteria and included in the Social Portfolio.		SDG 4	Page 21
Purpose of the loan	Direct responses, in %, broken down by response options to the question "What is the purpose of the loan?" for self-employed workers, micro businesses and small and medium businesses of the telephone surveys conducted with a representative sample of eligible borrowers included in the Social Portfolio.		SDG 8	Page 24
Newly created companies beneficiaries of the loan funding	Newly created companies receiving financing included in the Social Portfolio, expressed as a number, %, and millions of €, and defined as "companies that have been created in the three years prior to the granting of the loan".		SDG 8	Page 24
Impact on business strength	<ol style="list-style-type: none"> 1) Direct responses, expressed as a %, broken down by response options to the question "How did the loan impact the business in the twelve months after it was granted?" for self-employed workers, micro businesses and small and medium businesses of the telephone surveys conducted with a representative sample of eligible borrowers included in the Social Portfolio. 2) Intensity Score, expressed in scale of 0 to 10, calculated considering the weighted average of the answers to the previous question as described in page 42 of this report. 		SDG 8	Pages 25 and 29

Impact Indicators

Indicator	Definition	Data source	SDG	Page in the Report
Impact on business growth after receiving the loan	<ol style="list-style-type: none"> 1) Direct responses, expressed as a %, broken down by response options to the question "How did granting the loan impact the business in the twelve months after it was granted?" for self-employed workers, micro businesses and small and medium businesses of the telephone surveys conducted with a representative sample of eligible borrowers included in the Social Portfolio. 2) Intensity Score, expressed in scale of 0 to 10, calculated considering the weighted average of the answers to the previous question as described in page 42 of this report. 		SDG 8	Pages 25 and 30
Impact of the loans on recipients' quality of life	<ol style="list-style-type: none"> 1) Direct responses, expressed as a %, broken down by response options to the question "After receiving the loan, would you say that your quality of life has improved?" for self-employed workers of the telephone surveys conducted with a representative sample of eligible borrowers included in the Social Portfolio. 2) Intensity Score, expressed in scale of 0 to 10, calculated considering the weighted average of the answers to the previous question as described in page 42 of this report. 		SDG 8	Page 26
Specific areas of wellbeing improvements due to loans	Indicated in %, broken down by response options to the question "For each area of your quality of life broken down below, please indicate on a scale of 1 (strongly disagree) to 4 (strongly agree), the degree to which you agree with the following statements about perceived changes in different areas of your quality of life since being granted the loan?" for self employed workers of the telephone surveys conducted with a representative sample of eligible borrowers included in the Social Portfolio		SDG 8	Page 26
Economic Impact on Gross Domestic Product⁽¹⁾	<p>Total, direct, and indirect economic impact, in millions of €, defined as the "economic contribution to GDP of the loans allocated to the Social Portfolio", broken down by sector of the economy.</p> <p>A detailed description of the methodology employed can be found in pages 42 and 43 of this report.</p>	  	SDG 8	Page 31
Employment impact⁽¹⁾	<p>Total, direct, and indirect employment impact, in millions of €, defined as the "employment contribution of the loans allocated to the Social Portfolio", broken down by sector of the economy</p> <p>A detailed description of the methodology employed can be found in page 43 of this report.</p>	  	SDG 8	Page 32

(1) the methodology used to calculate the indicators has slightly changed, and therefore the data obtained would not be comparable to figures calculated in previous Social Portfolio Reports

Intensity score

» The ordinal qualitative response variables have been transformed into quantitative intensity indices using a scale from 0 to 10. The value 0 has been assigned to the conceptually most negative category, the value 10 to the most positive, and intermediate values to the rest of the categories in function of the number of possible categories. Missing values or NR/DK have been excluded from the analysis.

Included below is a worked example of the calculation:

» **EXAMPLE:**
Percentage of positive impact generated by funding – SDG 1 Families

The financial support received has had a positive impact on my personal well-being and/or that of a family member

Answer	Number of responses	Score assigned	Calculation (Number of responses * score assigned)
Strongly agree	129	10	1290
Agree	365	7,5	2737,5
Neither agree nor disagree	69	5	345
Disagree	14	2,5	35
Strongly disagree	3	0	0
NR/DK	20	0	0
	600		4407,5

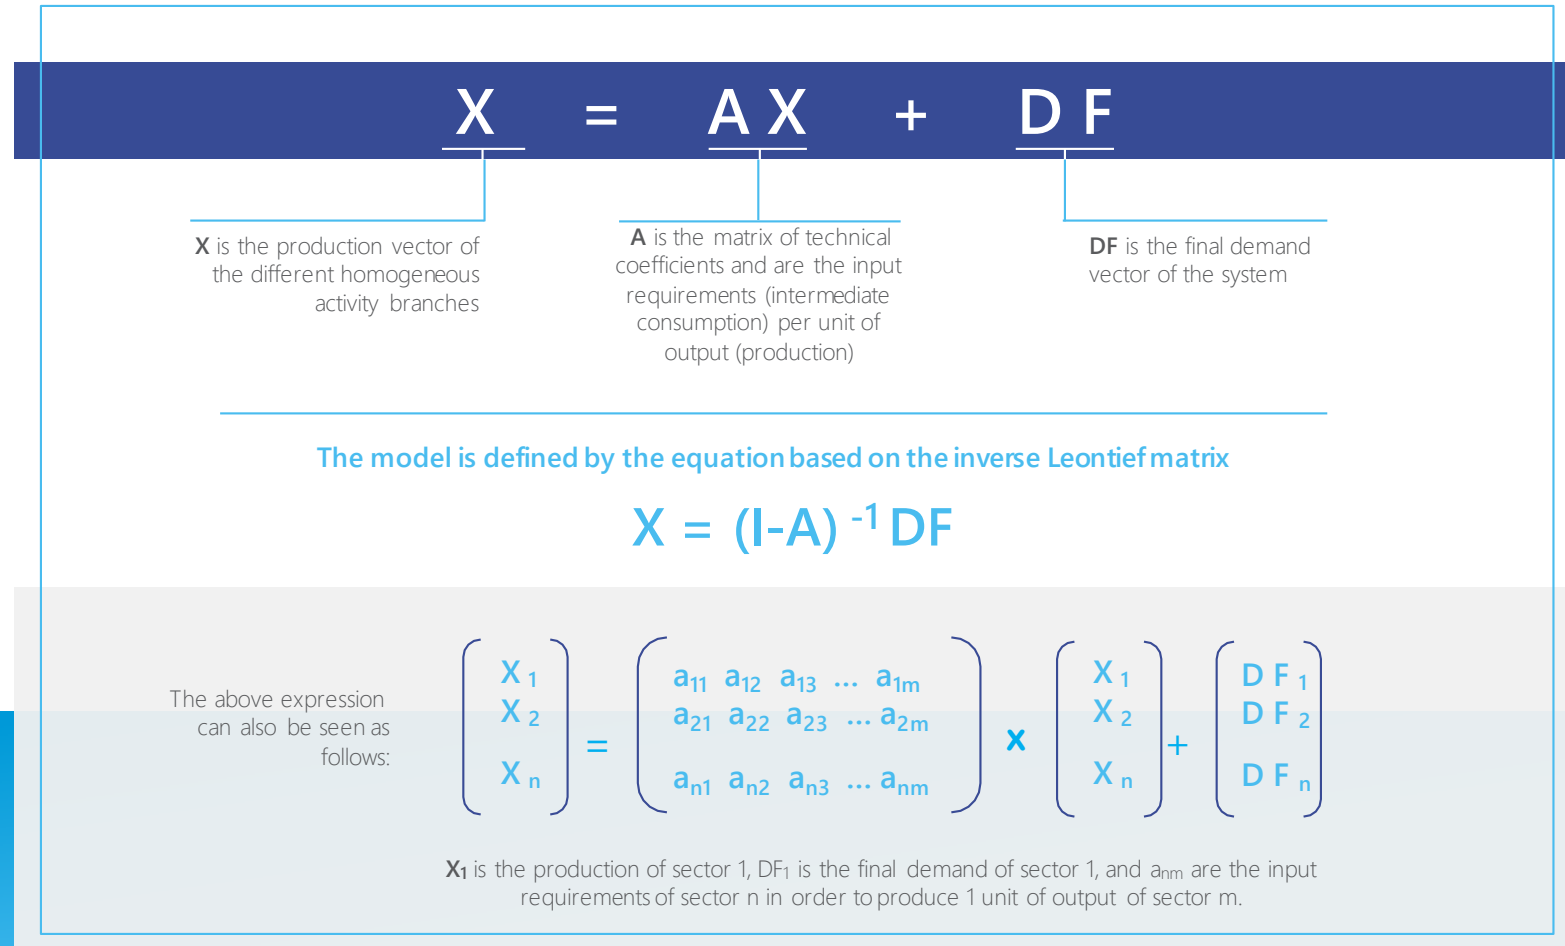

WEIGHTED SCORE OUT OF 10

Intensity score out of 10=
 $4407,5 / (600 - 20) = 7.6$

Input-output

» The input-output table analysis was developed by W.W. Leontief in 1936, as an instrument for interpreting the interdependencies of the various sectors of the economy. The methodology is used to calculate the impacts that the credits granted have on the whole of the Spanish economy.

The input-output methodology is a technique used to estimate indirect impact on GDP and employment. In general, the starting point is the symmetric input-output tables (SIOT), which serve as the basis for calculating the multiplier or Leontief matrices. Both types of matrices are published by the National Institute of Statistics (INE). The input-output methodology is based on Leontief's production model, in which the production requirements of an economy are equivalent to the intermediate demand for goods and services by the productive sectors, plus final demand, **as summarised in the following expression:**

Input-output

ECONOMIC IMPACT

Impact has been estimated by taking into account the borrowers' activity as a consequence of the loan granted. In this context, the total impact of the loans is the sum of the direct and indirect impacts. This impact is estimated based on the total volume of financing in the portfolio and using the results of the surveys (sum of spending on salaries, suppliers and taxes).

Direct impact is the value added that the loans have created directly within the borrowers' industries. The Economic direct impact of the loans is the Social Portfolio allocated to SDG 8.

Indirect impact is the value added supported through other parties in the supply chain, that is, the supply chain activity generated in the Spanish economy by the loans granted. In order to calculate these effects, type I Gross Value Added (GVA) multipliers were used to estimate the total indirect GVA generated by the loans granted. Indirect GVA is the GVA supported through the loans granted within the borrowers' industries in terms of supply chain demand⁽¹⁾.

EMPLOYMENT IMPACT

Employment impact has been estimated by taking into account the borrowers' activity as a consequence of the loan granted.

Direct employment is defined here as the number of FTEs⁽²⁾ employed by the borrowers as a consequence of the loans granted. Employment is estimated based on data from official government statistics that indicate the average salary in each of the relevant economic sectors for enterprises with 250 employees or less, as well as the average percentage of personnel costs for SMEs in each sector. This percentage is used to estimate the total amount of CaixaBank's social portfolio used for personnel costs by the recipient companies based on the sectoral distribution of the loan pool. Once these total personnel costs have been calculated, this figure is divided by the average salary in each sector to calculate the estimated number of jobs created or maintained.

Indirect employment numbers give an estimate of how many FTE jobs are supported throughout the economy by an economic sector thanks to the loan granted by the CaixaBank Group. Indirect employment is supported by supply chain purchases made by the borrowers' sector. Type I employment effect multipliers are applied to estimate the number of FTEs supported due to supply chain demand within the borrowers' economic sector (indirect impact).

The following procedures are used to estimate the indirect impact on employment created/retained by CaixaBank:

- > Quantification of financing broken down by the sectors affected.
- > The volume of financing for each sector is multiplied by the matrix of production multipliers, thus obtaining a vector that shows the indirect impact of production.
- > Calculation of the employment coefficients per sector, i.e. the ratio between the number of employees and the production of each sector.
- > The indirect impact by sector is the result of multiplying the indirect impact on production by sector by the employment coefficient for each sector.
- > The total indirect impact is obtained by adding up the indirect impact on each sector affected.

1) Input-output multipliers relevant to each industry are applied to the Spanish-only output for each industry to obtain indirect Gross Value Added.

2) Full-time equivalent

Territorial potential social impact index (TPSII)

This synthetic index has been calculated by ECODES

» The territorial potential social impact index is a synthetic index that considers the linear combination of two sub-indices.

The first, called the Provincial Social Challenges Index (PSCI, analyzes the social, socioeconomic and demographic challenges faced by a territorial sub-grouping by considering a set of variables at the provincial level. The variables used and the weight assigned to each of them in the final value are shown in the following table:

Variable	Description	Weight β
S1	Unemployment	0.4
S2	Family income	0.15
S3	Poverty rate	0.15
S4	Aging	0.15
S5	Immigration	0.08
S6	Female unemployment	0.05
S7	Health status	0.02

» The synthetic index seeks to combine a measure of the social challenges faced by a territory (measured through the PSCI) with a measure of the area's potential to take advantage of an influx of economic resources. For that reason, the TPSII also includes a measure of regional competitiveness, as a proxy indicator for the area's resilience and capacity to generate positive economic impact as a result of the targeted financial resources to the area. The model therefore considers those variables of the European regional competitiveness index (RCI) related exclusively to economic aspects or related to business activity. Specifically, the variables used are the following:

Technology

Institutions

Business
sophistication

Infrastructure

Size of
the market

Innovation

This sub-index aimed to introduce the positive effect of regional competitiveness as a factor of resilience into the model. Combined with the social challenges measure as detailed in the formula below, the synthetic index seeks to identify geographic areas in which an introduction of economic resources has the potential to address the social challenges identified earlier.

The final index value assigned to each province is determined by the following formula:

$$\text{TPSII} = 0.7 * \text{PSCI} + 0,3 * \text{RCI}$$

Appendix II: Sustainable banking & strategic priorities

Always at the forefront of sustainable and inclusive development of the financial sector

Social commitment: A foundational value

- FINANCIAL INCLUSION

- > Integrating ESG in the bank
- > Transparency and accountability
- > Benchmark in regulatory standards

Through our activities and strategic alliances, we contribute to the achievement of the Sustainable Development Goals

Leading positive social impact and promoting financial inclusion is a part of our DNA

LEAD POSITIVE SOCIAL IMPACT AND PROMOTE FINANCIAL INCLUSION: STRATEGIC LINES

- Promoting positive social impact, employment and entrepreneurship
- Leadership in microfinance
- Social projects in our communities with alliances to multiply people's opportunities

I. PROMOTING POSITIVE SOCIAL IMPACT

- **Solutions with social impact** for vulnerable groups
- **Active housing policy**
- Financing **companies with a positive social impact**
- Focus on **social inclusion in rural areas**
- **Employability:** entrepreneurship, training programmes
- **Accessibility** strategy: to facilitate financial inclusion through all customer service channels

II. MICROBANK: LARGEST PRIVATE MICROFINANCE INSTITUTION IN EUROPE

- **More than 15 years promoting financial inclusion**
- **~1.2 million** micro-loans and other social financing granted since its creation in 2007
- With the support of European Institutions

III. SOCIAL PROJECTS IN OUR COMMUNITIES AND WITH ALLIANCES

- **Alliances with third parties** to provide solutions to social challenges, promote education and accompany vulnerable groups
- Promotion of **volunteering** initiatives → More than **5,700 social projects** carried out with local NGOs and associations in 2021: ~170,100 beneficiaries; ~72,500 volunteering hours (2021)

Appendix III: SDG Bond Framework overview

CaixaBank SDG Framework update November 2022

All SDGs Bonds issued by CaixaBank during the period 2019-2022 were carried out under the SDG Bond Framework published in 2019 detailed in the following slides. CaixaBank has published its updated SDG Framework in November 2022.

FRAMEWORK UPDATE IN 2022

- In line with CaixaBank's Sustainability Principles, the **SDG Bond Framework published in 2019 and updated in 2022** represents a **statement of intent to clearly contribute to the process of transition** to a carbon neutral economy and contributing to the economy, employment and social initiatives
- CaixaBank has been a **frequent Green and Social Bond issuer** since the **establishment of its SDGs Bond Framework in August 2019⁽¹⁾**
- Since then, CaixaBank's Sustainable asset portfolio has been growing and several additional ESG commitments have been pledged; in line with those commitments, **CaixaBank updated its SDGs Bond Framework in Nov-22, which reflects the current sustainability strategy of the bank and its intention to be aligned with the EU Regulation on ESG**
- **CaixaBank reports on a portfolio basis:** its 1st Green Bonds report was published in June 2021 and its second impact report on Social Bonds (Social Portfolio Report) was published in December 2021⁽²⁾

HIGHLIGHTS

- The Framework allows CaixaBank to issue **Green⁽³⁾, Social⁽⁴⁾ and/or Sustainability debt instruments⁽⁵⁾**
- **Debt instruments issued under the Framework are fully aligned with the four key pillars of the ICMA Green Bond Principles 2021 ("GBP 2021"), Social Bond principles 2021 ("SBP 2021") and Sustainability Bond Guidelines 2021 ("SBG 2021")**
- **For each Green, Social or Sustainability debt instrument issued, CaixaBank asserts that it will adopt: (1) Use of Proceeds; (2) Project Evaluation and Selection; (3) Management of Proceeds; (4) Reporting, as set out in the Framework**
- **Funds raised** through issuances under this Framework will be allocated to finance or refinance a variety of assets ("Eligible Projects") that promote the following **SDGs**:

SUSTAINABLE DEVELOPMENT GOALS

Sustainable Development Goals (SDGs) Funding Framework

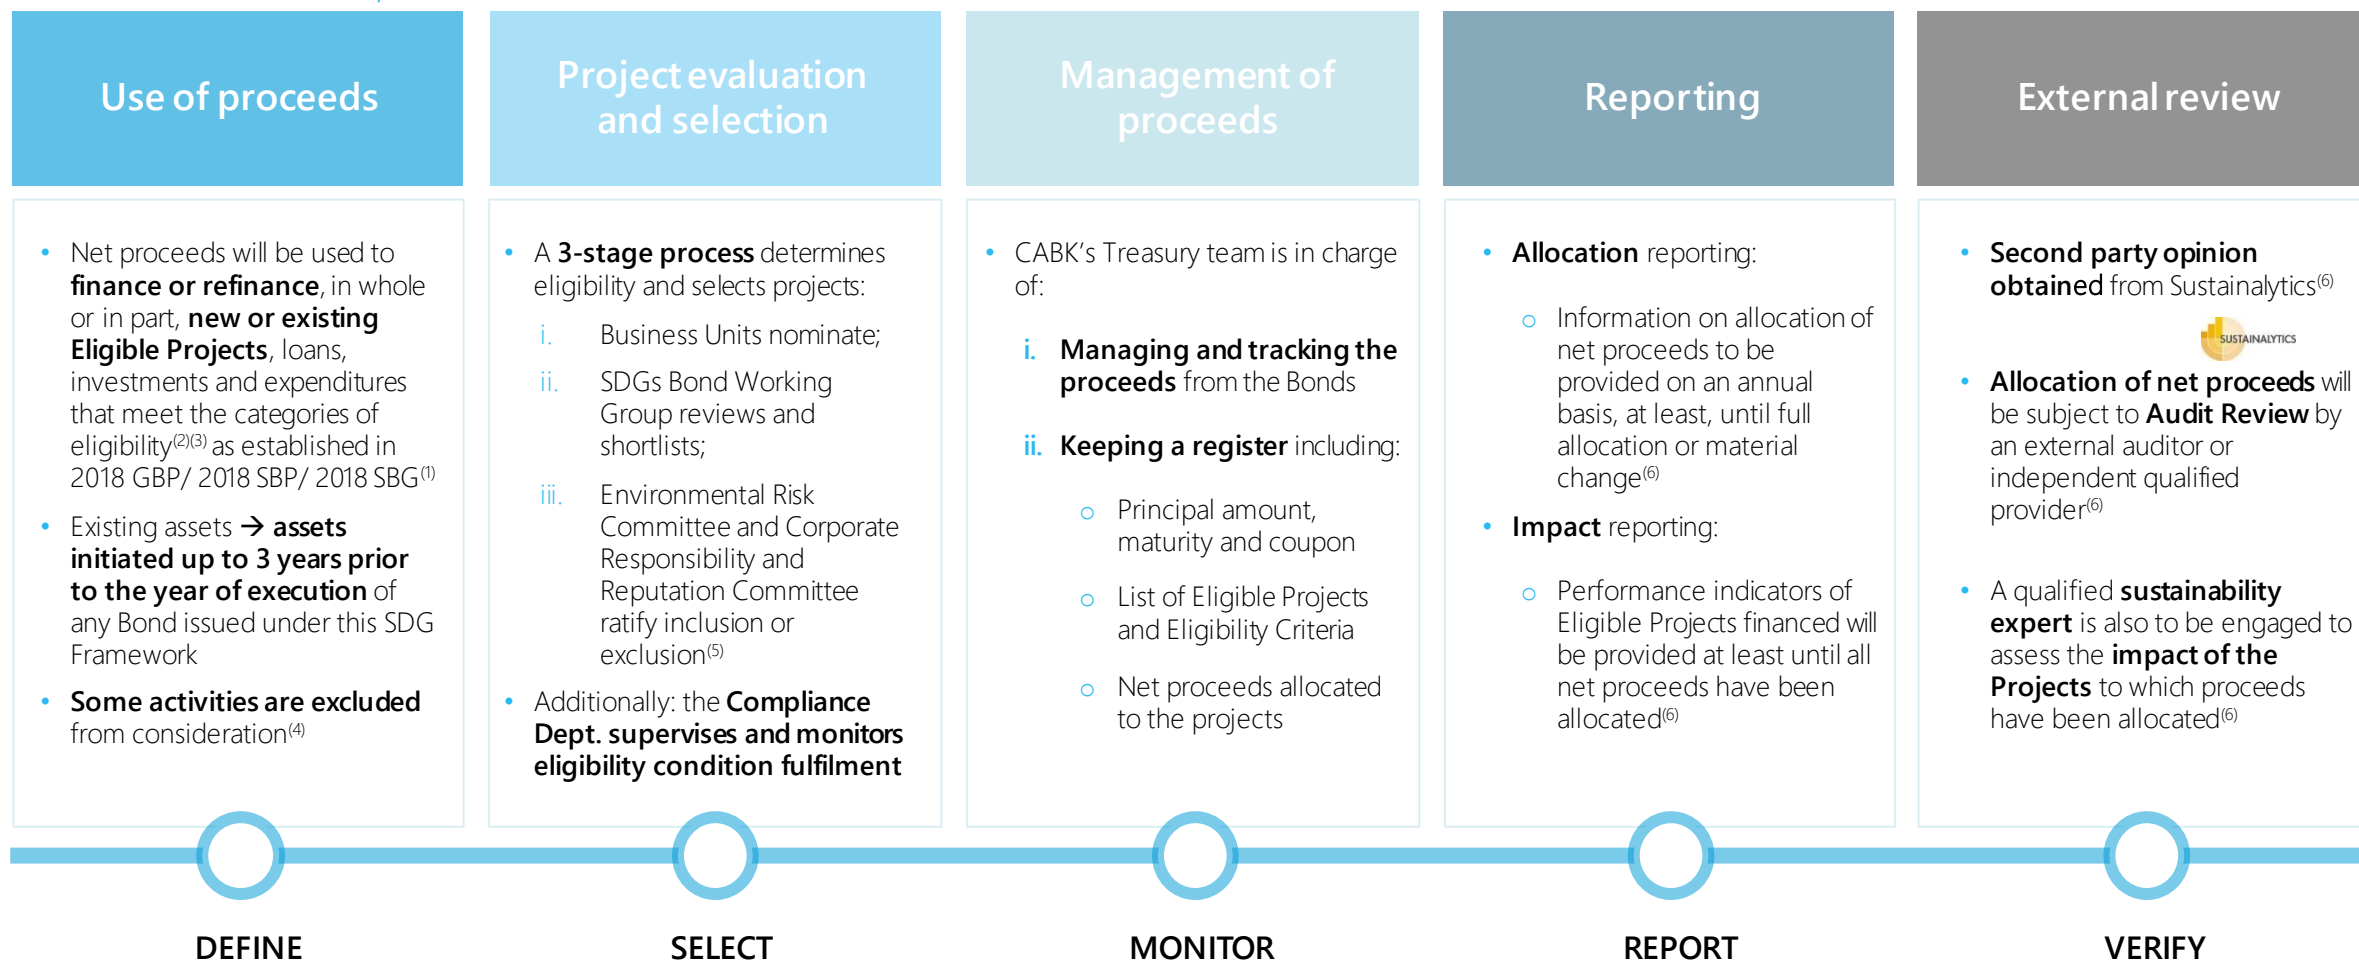

November 2022

© CaixaBank, S.A. 2022

(1) 10 issuances under the SDGs Bond Framework between August 2019 and November 2022: 6 Green Bonds and 4 Social Bonds for a total Euro equivalent issue volume of €9.6Bn, becoming one of the leading issuers among Euro Area financial institutions. (2) Both reports have been verified by an independent third party, with limited assurance. (3) Proceeds allocated to green projects only. (4) Proceeds allocated to social projects only. (5) Including Bonds and/or Commercial Paper.

SDG Bond Framework is aligned with the four key pillars of ICMA 2018 GBP, 2018 SBP and 2018 SBG⁽¹⁾

(1) ICMA Green Bond Principles 2018 (2018 GBP) and Social Bond Principles 2018 (2018 SBP) and Sustainability Bond Guidelines 2018(2018 SBG) and subsequently updated in the 2021 GBP / 2021 SBP / 2021 SBG. (2) Where a business or project derives ≥90% of revenues from activities that align with Eligibility Criteria, its financing can be considered eligible for CABK Green, Social, or Sustainability Bond(s). In these instances, the Use of Proceeds can be used by the business for general purposes (as long as it does not fund activities in the Exclusion list). (3) Expenditures could be considered if compliant with the pending final EU GBS (Green Bond Standard) definition of Green expenditures. (4) Additional exclusions on top of the exclusions specified in the ESG Management Policies. (5) At least on an annual basis, the alignment of Eligible Projects with the Eligibility Criteria will be re-assessed. (6) It is available on CaixaBank's website at the following link: <https://www.caixabank.com/en/shareholders-investors/fixed-income-investors.html>

Use of proceeds – Green eligible categories

- Palm oil
- Soy oil
- Tobacco
- Weapons

Asset evaluation and selection process

(1) In April 2021, the Sustainability Committee assumed the functions of the Environmental Risk Committee and those related with sustainability of the Corporate Responsibility and Reputation Committee.
(2) At least on an annual basis, the alignment of Eligible Projects with the Eligibility Criteria will be re-assessed.

Management of proceeds

CaixaBank's Treasury team will be in charge of managing the net proceeds

- ▶ **CaixaBank's Treasury team will be in charge of managing the net proceeds** from Green, Social or Sustainability bonds
- ▶ It will also be responsible for **keeping a register** containing the following information:
 - Green, Social, or Sustainability Bond(s) information such as the **principal amount, maturity date or the coupon**
 - **A list of Eligible Projects and the corresponding Eligibility Criteria**, as well as a brief description of the Projects
 - The **net proceeds allocated** to the Projects
- ▶ In case of asset divestment or if a project no longer meets the Eligibility Criteria, CaixaBank intends to use the net proceeds to finance other Eligible Projects which are compliant with the Eligibility Criteria of the SDGs Framework
- ▶ CaixaBank will invest the balance of net proceeds from the Green, Social, or Sustainability Bond(s) issued unallocated to Eligible Projects, according to the Treasury's general liquidity guidelines for short-term investments

External review by Sustainalytics deems CaixaBank SDG Framework credible and impactful

FRAMEWORK VERIFICATION – Second party opinion

Sustainalytics considers CaixaBank's SDGs Framework aligned with GBP, SBP, SBG and GLP⁽¹⁾

Sustainalytics is of the opinion that the CaixaBank SDG Framework is credible and impactful and aligns with the four core components of the Green Bond Principles 2018 (GBP), Social Bond Principles 2018 (SBP) Sustainability Bond Guidelines 2018 (SBG) and Green Loan Principles 2018 (GLP).

- Sustainalytics considers the financing of projects and companies dedicated to providing (i) access to essential services, (ii) affordable basic infrastructure, (iii) employment generation, (iv) sustainable water and wastewater management, (v) renewable energy, (vi) energy efficiency, (vii) green buildings, (viii) clean transportation, (ix) pollution prevention and control and (x) terrestrial and aquatic biodiversity conservation to have positive environmental or social impacts and to advance the UN Sustainable Development Goals.
- CaixaBank integrates sustainability in its business strategy, committing to support the transition to a sustainable economy while continuously working towards avoiding, mitigating and remedying those activities that could present a risk for the community and environment.
- CaixaBank's internal process of evaluating and selecting projects as well as processes for management of proceeds are aligned with market practice. In addition, CaixaBank intends to report on the allocation of proceeds on its website on an annual basis.
- The allocation of the net proceeds will also be subject to External Review while a qualified sustainability expert will be engaged to prepare the impact of the Projects to which proceeds have been allocated and is committed to reporting annually on impact indicators on its website until full allocation.

(1) This independent verification assessment is published on CaixaBank website https://www.caixabank.com/deployedfiles/caixabank/Estaticos/PDFs/Inversores_institucionales/CaixaBankSDGsFramework-SustainalyticsSecondPartyOpinion.pdf.

Appendix V: Independent Limited Assurance Report

Independent Limited Assurance Report

CaixaBank, S.A.

Independent limited assurance report
on the 'Social Bonds Report'
31 March 2022

**Independent limited assurance report
on the 'Social Bonds Report'**

To the management of CaixaBank, S.A.:

We have carried out our work to provide limited assurance on the accompanying 'Social Bonds Report' of CaixaBank, S.A. (hereinafter, 'CaixaBank' or 'the Company') as of 31 March 2022, in regards with the Inaugural Social Bond SNP issued in September 2019 (ISIN XS2055758804), the COVID-19 Social Bond SP issued in July 2020 (ISIN XS2200150766), the Third Social Bond SNP issued in May 2021 (ISIN XS2346253730) and the Fourth Social Bond SP issued in January 2022 (ISIN XS2434702424) to progress towards SDG 1 (No Poverty), SDG 3 (Good Health and Well-Being), SDG 4 (Quality Education) and SDG 8 (Decent Work and Economic Growth), prepared in accordance with the criteria described in sections 'Appendix I: Methodology' and 'Appendix III: SDG Bond Framework overview' of the 'Social Bonds Report', defined by CaixaBank in accordance with the Sustainable Development Goals (SDGs) Framework (hereinafter, 'SDGs Bond Framework' or 'the Framework'), available on its website:

https://www.caixabank.com/deployedfiles/caixabank/Estadisticas/PDFs/Inversiones_Institucionales/2019C_auiBankSDGsFramework.pdf

Specifically, the sections of the 'Social Bonds Report' under our review have been the following:

- The portfolio allocation of the Social Bonds proceeds in accordance with the eligibility criteria, defined by CaixaBank in the 'SDGs Bond Framework' and detailed in page 9.
- Social Bonds portfolio allocation indicators (amount and number of financial transactions together with their associated breakdowns), included in section 'Allocation Report' of the 'Social Bonds Report' (pages 9-15), and specifically the indicators referenced in the table 'Allocation indicators' of the section 'Appendix I: Methodology' (pages 34-35).
- Impact indicators associated to the Social Bonds portfolio, included in section 'Impact Report' of the 'Social Bonds Report' (pages 17-32), and specifically the indicators referenced in the table 'Impact indicators' of the section 'Appendix I: Methodology' (pages 36-44).

Responsibility of the management

The management of CaixaBank is responsible for the preparation, content and presentation of the 'Social Bonds Report' in accordance with the criteria established by the Company, and the definition of these criteria according to the 'SDGs Bond Framework'. Management's responsibility also includes the design, implementation and maintenance of the internal control necessary to allow the information included in the 'Social Bonds Report' to be free from material misstatement, whether due to fraud or error.

The management of CaixaBank is also responsible for defining, implementing, adapting and maintaining the management systems from which the information required to prepare the 'Social Bonds Report' is obtained.

Independent Limited Assurance Report

Our independence and quality control

We have complied with the independence requirements and other ethical requirements of the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code) which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Our firm applies International Standard on Quality Control 1 (ISQC 1) and accordingly maintains a comprehensive system of quality control, including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our responsibility

Our responsibility is to issue a limited assurance report based on the work carried out and the evidence obtained. Our limited assurance engagement has been carried out in accordance with the International Standard on Assurance Engagements 3000 (ISAE 3000) (Reviewed), 'Assurance Engagements other than Audits or Reviews of Historical Financial Information', issued by the International Auditing and Assurance Standards Board (IAASB) of the International Federation of Accountants (IFAC).

In a limited assurance engagement, the procedures performed vary in terms of their nature and timing of execution, and are less extensive than those carried out in a reasonable assurance engagement. Accordingly, the assurance obtained is substantially lower.

Our work has consisted of posing questions to management and several CaixaBank units that were involved in the preparation of the sections of the 'Social Bonds Report', in the review of the processes for compiling and validating the information presented in the sections of the 'Social Bonds Report', and in the application of certain analytical procedures and review sampling tests, as described below:

- Meetings with CaixaBank's personnel from various units who have been involved in the preparation of the 'Social Bonds Report', to understand the qualification of the Social Bonds portfolio, the existing internal procedures and management systems, the information gathering process and the control environment.
- Analysis of the procedures used for obtaining and validating the information presented in the sections of the 'Social Bonds Report'.
- Verification that the portfolio allocation of the Social Bonds proceeds meets the eligibility criteria, defined by CaixaBank in the 'SDGs Bond Framework'.
- Review that the CaixaBank's Social Bonds portfolio allocation indicators (amount and number of financial transactions together with their associated breakdowns) and impact indicators associated to the Social Bonds portfolio, included in the 'Social Bonds Report', have been prepared in accordance with the criteria described in section 'Appendix I: Methodology' of the 'Social Bonds Report', defined by CaixaBank in accordance with the 'SDGs Bond Framework'.

- Verification, through random sample testing, internal control tests and substantive tests on the quantitative and qualitative information included in the sections of the 'Social Bonds Report' under our review. We have also verified whether this quantitative and qualitative information have been appropriately compiled from the data provided by CaixaBank's sources of information.
- Obtainment of a representation letter from the management of CaixaBank.

Limited assurance conclusion

Based on the procedures performed and the evidence obtained, nothing has come to our attention that causes us to believe that:

- the portfolio allocation of the Social Bonds proceeds is not in accordance with the eligibility criteria, defined by CaixaBank in the 'SDGs Bond Framework' and detailed in page 9 of the 'Social Bonds Report',
- the Social Bonds portfolio allocation indicators (amount and number of financial transactions together with their associated breakdowns) and the impact indicators associated to the Social Bonds portfolio, included in the 'Social Bonds Report', contain significant errors or have not been prepared, in all their significant matters, in accordance with the criteria described in section 'Appendix I: Methodology' of the 'Social Bonds Report' (pages 34-44), defined by CaixaBank in accordance with the 'SDGs Bond Framework'.

Use and distribution

Our report is only issued to the management of CaixaBank, in accordance with the terms and conditions of our engagement letter. We do not assume any liability to third parties other than CaixaBank's management.
