External assurance

The indicators were compiled on the basis of in-house calculations using internal data alongside that from external databases and reports, which are mentioned when this is deemed relevant.

A large number of the non-financial indicators included in this publication have been obtained from the “Statement of Non-Financial Information” section of the 2021 CaixaBank Group Consolidated Management Report. This section has been verified by an external expert, PwC, within the scope and terms set out in their corresponding independent Assurance Report. The economic and financial information was retrieved from the CaixaBank Group’s audited 2021 financial statements. Both documents are available at: www.CaixaBank.com.
