20 March 2026

CaixaBank Wealth Management, CaixaBank’s private banking division, has once again seen its leadership and innovation recognised with two new international awards from the British specialist magazine Euromoney.

First, the bank has been granted the highest national recognition, the ‘Spain’s Best Private Bank 2026’ award, which it receives for the fourth consecutive year and for the eighth time in the last twelve years.

In addition, CaixaBank Wealth Management has received the ‘Spain’s Best for Discretionary Portfolio Management 2026’ award, acknowledging the bank’s leadership in this field. CaixaBank receives this recognition for the third time.

Meanwhile, the Private Banking division of BPI, CaixaBank’s subsidiary in Portugal, has been awarded ‘Portugal’s Best Private Bank 2026’, ‘Portugal’s Best for High-Net-Worth Clients 2026’, and ‘Portugal’s Best for Succession Planning 2026’. With these recognitions, the CaixaBank Group totals five awards in the prestigious Euromoney Private Banking Awards 2026, which were presented at a ceremony held in London.

For **Belén Martín**, Head of CaixaBank Wealth Management, “these recognitions strengthen our positioning as a benchmark in wealth management and endorse the soundness of our model. They are also the result of the commitment and professionalism of all the teams that make up CaixaBank Wealth Management, and they motivate us to continue working to deliver excellence in the service we provide to our clients every day.”

The British magazine has acknowledged CaixaBank in the year in which the bank has reinforced its Private Banking division in Spain with an expanded wealth-management vision and a new brand: CaixaBank Wealth Management.

[The division closed the 2025 financial year with growth across its main indicators](#), thanks to strong commercial activity and a firm commitment to independent advisory services and innovation in wealth-management products and services.

Over the year, the division increased its assets under management to €189,219 million, representing a 14% increase compared with 2024. It also recorded growth in the number of clients (+9%) and in the number of relationship managers (+3%).

The ‘Spain’s Best Private Bank 2026’ award—received for the fourth year in a row and for the eighth time in the last twelve years—recognises a model based on advising and supporting clients through a wide range of exclusive and innovative products and services designed to meet their needs at all times.

Regarding the ‘Spain’s Best for Discretionary Portfolio Management 2026’ award, it acknowledges CaixaBank Wealth Management’s leadership in this area, with assets under discretionary management amounting to €38,324 million, a 14% increase compared with 2024.

Continuous progress with a new brand

These international recognitions reward the bank in the year in which CaixaBank strengthened its Private Banking division in Spain with a broader wealth-management vision and [a new brand](#): CaixaBank Wealth Management (WM).

The new nomenclature seeks to emphasise its transversal vision and positioning as a pioneering and innovative institution in products and services. It reflects the bank’s strategic vision of offering a service broader in scope than that of traditional private banking, encompassing all segments, services, and capabilities within CaixaBank’s wealth-management value proposition.

Innovation and advanced technology

In 2025, CaixaBank Wealth Management continued strengthening its commitment to innovation through the most advanced technologies. Following the launch of the GPS platform in 2024 and its rollout across the entire commercial network in 2025, the bank created [Advisory GPS](#), a service that combines agility in portfolio construction with maximum personalisation in advisory.

Just one year after its launch, Advisory GPS already has over 2,500 clients and more than €700 million in assets, one-third of which is new money coming from other institutions—evidence of the strategy’s success in differentiating the bank from competitors in the Spanish market.

New services for the UHNW segment

As part of this evolution, in 2026 CaixaBank Wealth Management launched [Family Governance](#), a new comprehensive advisory service in family governance for business-owning families. This new value proposition evolves the bank’s Global Wealth service—focused on high-net-worth clients—into a holistic advisory model with integrated and personalised management and a full range of services. CaixaBank Wealth Management aims to become the national benchmark in advising business families, corporate governance, and preparing the next generation.

CaixaBank Wealth Management

CaixaBank’s private banking model is made up of a team of nearly 1,200 accredited specialist relationship managers, with an average of 15 years’ experience, and 75 exclusive private-banking centres and 11 exclusive Global Wealth centres, guaranteeing clients personalised and close attention.

CaixaBank Wealth Management’s value proposition offers different service models to adapt to each client’s needs and preferences—from those seeking global advisory services (independent or non-independent) to those who manage their wealth autonomously through a platform with global investment capabilities in securities, funds, savings insurance, and other investment products.
